The early basketball games were played with a soccer-style ball and peach baskets. There was no limit in the number of players or balls that could be used at once. It was not uncommon to see a game with 50 players and 5 balls. In 1892, Naismith developed 13 simple rules to help govern the game. Some of these rules are still used today. The rules of the game were published in a national magazine and its popularity quickly spread throughout the United States. The game grew so fast that the first intercollegiate basketball game was played in 1896. In 1936, basketball became an Olympic Sport.</p> <h3>Object of the Game</h3> <ul style="list-style-type: none"> • The object of the game is to advance the ball towards your opponent's basket by passing or dribbling the ball. • Each team attempts to score the most points by shooting the ball into the basket.
