Bbc Training Style Guide:

English Usage Guides Ingrid Tieken-Boon van Ostade, 2017-11-03 This volume explores both historical and current issues in English usage guides or style manuals. Guides of this sort have a long history while Fowler's *Modern English Usage* 1926 is one of the best known. The first English usage guide was published in the UK in 1770 and the first in the US in 1847. Today new titles come out nearly every year while older works are revised and reissued. Remarkably however the kind of usage problems that have been addressed over the years are very much the same and attitudes towards them are slow to change but they do change. The chapters in this book look at how and why these guides are compiled and by whom, what sort of advice they contain, how they differ from grammars and dictionaries, how attitudes to usage change and why. Institutions such as the BBC need their own style guide. The volume will appeal not only to researchers and students in sociolinguistics but also to general readers with an interest in questions of usage and prescriptivism. Language professionals such as teachers and editors and language policy makers.

Writing for Broadcast Journalists Rick Thompson, 2004-11-25 *Writing for Broadcast Journalists* is the essential guide to writing news for television and radio, guiding readers through the significant differences between writing text to be read and writing spoken English that will be heard. This book helps broadcast journalists at every stage of their careers to avoid newspaper style, journalese, cliché, jargon and inaccurate grammar or pronunciation while capturing the immediacy of the spoken word in creative broadcast news scripts. It also gives advice on providing concise online material for broadcasters' websites. Sections include: Practical advice on how to write accurately but conversationally; How to cope with a dynamic English language with new expressions and words changing their meanings; Writing scripts that match the TV pictures and use real sound on radio; Detailed guidance on correct terminology and the need for sensitive language; An appendix of dangerous words and phrases to be avoided in scripts. Written in a lively and accessible style by a former BBC news editor, *Writing for Broadcast Journalists* is an invaluable guide to the techniques of writing news for television, radio and online audiences.

Programme Making for Radio Jim Beaman, 2006-09-27 The book is informed, accessible and comprehensive, covering the whole range of skills needed by the radio professional in the studio and on location, with practical guidelines explaining how radio programmes are made and the techniques used to produce them.
