Over 31 000 scientists from the United States have signed a petition stating they do not believe human activities have caused global warming.

The petition states that there is not enough evidence to prove that human activities have added excess “greenhouse gases” to the atmosphere that increase the overall temperature of our world. The petition also states that, even if global warming is occurring, we should let it happen, as there are benefits to having more methane and carbon dioxide in the atmosphere.

The petition, along with information about the people signing the petition, can be found at the website [www.oism.org/pproject](http://www.oism.org/pproject).
