Cutler, 2017-11-15 From the days of oars and coal fired engines to the computerized era of the 21st century *The Bluejacket's Manual* has been an essential part of the American Sailor's sea bag for over one hundred years serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks Written by a Sailor whose decades of naval service included sea duty in patrol craft destroyers cruisers and aircraft carriers as both an officer and a white hat this newest edition has been overhauled to reflect the current state of the ever evolving United States Navy and includes chapters on ships and aircraft uniforms weapons damage control communications naval customs and ceremonies security leadership pay and benefits naval missions military fundamentals and seamanship Since Lieutenant Ridley McLean wrote the first edition of this perennial classic the Navy has grown from fledgling sea power to master of the world's oceans and both technology and American culture have changed in ways probably unimaginable in his day Although *The Bluejacket's Manual* has necessarily evolved through more than twenty revisions to reflect those changes its original purpose has remained steadfastly on course Like its predecessors this new edition makes no attempt to be a comprehensive textbook on all things naval to do so today would require a multivolume set that would defy practicality but it continues to serve two very important purposes First it serves as a primer that introduces new recruits to their Navy and helps them make the transition from civilian to Sailor Second it serves as a handy reference that Sailors can rely on as a ready source of basic information as they continue their service whether for only one hitch or for an entire career To that end this 25th edition has been reorganized to more efficiently reflect those dual purposes with the first part of the book consisting of Chapters that provide introductions and basic explanations that Sailors new to the Navy will find most helpful and the second part consisting of Tabs that deal with specifics often mere tables that seasoned Sailors will find useful for reference purposes Also unique to this latest edition has been the creation of an accompanying website

that will serve to keep the book current and provide valuable supplementary material In total this latest edition of a recognized Navy classic continues to serve today s Bluejackets and Old Salts in the traditional manner while providing a fresh approach that will be welcomed by potential recruits Navy buffs and a growing number of Bluejacket Manual collectors

**United States Naval History** Barbara A. Lynch, John E. Vajda, 1993      **Employee Relations Ethics** Andrew Sikula, Sr., John Sikula, 2000-12-01 This special issue reports on the changing social contract between employers and employees in both the public and private work sectors with a focus on the American experience The concept of Employee Relations Ethics ERE is introduced and defined as Treating employees properly and with respect and dignity The lead article introduces a new theory of management which is employee centered rather than customer driven or stockholder mandate The papers that follow address how the changing nature of the American work force has negatively effected US ERE universities skirt the law and contribute to ERE problems new work trend of working in teams impacts ERE and global compassion versus world competition determine and control ERE results The final piece presents an ERE case study explaining the broken covenant between U S military policymakers and American troops during this era of warfare retrenchment and downsizing      **Sea Change at Annapolis** H. Michael Gelfand, 2006 Since 1845 the United States Naval Academy has prepared professional military leaders for the United States at its Annapolis Maryland campus While it remains steeped in a culture of tradition and discipline the Academy is not impervious to change Di      **Naval Science** Wilbur A. Sundt, 1991 A four volume textbook to introduce the beginning NJROTC cadet to the Navy and its high school program for youth Includes information on maritime geography naval history navigation seamanship and other pertinent topics      **Naval Science** Richard R. Hobbs, 1997 Designed to introduce the new NJROTC cadet to the Navy to provide readings in various naval topics for cadets who anticipate applying for Navy college level scholarships and to provide an initial source of information for first year midshipmen of the U S Naval Academy and NROTC programs Topics covered include citizenship leadership and discipline naval history government fundamentals of naval organizations engineering weapons operations and logistics navigation seamanship meteorology and weather survival training and much more      **The Cumulative Book Index**, 1922      **The Epidemiology of Smoking Among U.S. Navy Women Recruits** Susan I. Woodruff, 1998 This study addressed several issues related to the course of smoking among young women entering the US Navy The smoking experience of women entering the Navy was described and their smoking prevalence was compared to civilians The effect of an involuntary 8 week smoking ban during recruit training on recruits smoking perceptions and intentions was examined Three months after leaving recruit training baseline smokers were reassessed to determine the impact of the eight weeks of enforced cessation on smoking relapse Finally nonresponse to the 3 month assessment and its potential effect on validity of findings was investigated About 5 500 women were surveyed over a 1 year period at entry to recruit training Standardized comparisons showed the smoking rate among recruits was higher than civilians 38 7% versus 28 8% respectively controlling for

differences in age race and education Age education and race ethnicity were related to smoking prevalence at entry As a result of the 8 week smoking ban there was a 39% reduction in the percent of all women recruits who perceived themselves as smokers from entry to graduation from recruit training Age education race ethnicity level of baseline smoking and addiction and intentions to smoke were related to changes in perceptions of being a smoker or the maintenance of consistent positive perceptions of being a nonsmoker Similarly changes in intentions to smoke were associated with sociodemographic and baseline smoking variables Those with any smoking experience at entry were surveyed 3 months after leaving recruit training to determine subsequent short term effects of the involuntary smoking ban Response rate to the follow up survey was 39% Reluctant respondents were not different from those responding promptly to the original survey but nonrespondents as a group were less educated had a higher prevalence of baseline smoking and were more frequent smokers than respondents Sixty eight percent had relapsed at the follow up Relapse rates varied by sociodemographic characteristics entry and graduation smoking variables entry to graduation changes in perceptions and intentions to smoke and Navy factors The type of smoker one was at entry to the Navy was an important predictor of relapse with 89% of daily smokers smoking at the 3 month follow up Results suggest that the 8 week involuntary ban on smoking was useful in bringing about changes in self reported smoking status and in helping some individuals stay off cigarettes once they leave recruit training although policy alone cannot be expected to be effective for all smokers High relapse rates particularly among heavier smokers underscore the need for educational motivational efforts during recruit training to help maintain the quit status achieved during those eight weeks
