Essential Herbs Lalitha Thomas, 2012-01-24 This book has become a CLASSIC in its field because of the high quality of the information that is presented and the clarity in the way it is presented. o Accessible Information o Concise Presentation o Humorous Stories o Intelligently Written THIS IS THE HERB BOOK THAT YOU CAN TRUST From the introduction Lalitha's extensive knowledge relative to the botanicals she has elected to write about is quite impressive to say the least. She is someone who gives plants personality and feeling. It shows in how as well as what she writes about. These various herbs come alive on the pages colored not only by her own sensitivities but also fully endowed with the dynamic energy of her very capable expertise. She has graduated from the hills and dales, forests and mountains and meadows and prairies of Mother Nature. These were the classrooms in which she studied ardently and diligently applying herself well to the tasks at hand. In clear and concise terms she takes the guesswork out of herbs. Under her reliable tutelage even the most novice of users of botanicals will soon become qualified enough to use those she covers in a safe and effective way. That is saying a lot considering just how many other herb books are out there at present. It is a true winner in every sense of the word. A reliable gem for consumers to place confidence in.
