

# Coding Guidelines

- Vascular and/or airway access are necessary for many invasive procedures. Pre-procedure or intra-procedure work includes the work necessary to secure the required access. The post-procedure work includes the tasks necessary to get a patient back to the proper post-procedure state.
- The endoscopic procedure is not separately reportable from the non-endoscopic surgery if it is carried out concurrently with it to make sure that no intraoperative injuries occurred or to confirm that the procedure was done appropriately.
- An operative procedure includes exposure to and investigation of the surgical field, which is not reportable independently. The existing protocols may typically be recorded separately if further research into a surgical area leads to additional surgeries beyond the main treatment. However, an operation that the **CPT code** descriptor identifies as a "separate procedure" is not separately reportable if it is carried out through the same skin incision, orifice, or surgical approach in a location that is anatomically connected to the other procedure(s).

working in today's medical coding field. Coder's Index makes it easy to instantly locate specific codes. Practice activities on the companion Evolve website reinforce key concepts from the text. Updated content presents the latest coding information so you can practice with the most current information available.

**Buck's Step-by-Step Medical Coding, 2019 Edition E-Book** Elsevier, 2018-11-05. Take your first step toward a successful career in medical coding with guidance from the most trusted name in coding education. The bestselling Buck's Step by Step Medical Coding is a practical, easy-to-use resource that shows you exactly how to code using all current coding sets. Explanations of coding concepts are followed by practice exercises to reinforce understanding of the material. In addition to coverage of reimbursement ICD 10 CM CPT HCPCS and inpatient coding, an Evolve website includes 30-day access to TruCode Encoder Essentials. No other text so thoroughly covers all coding sets in one source. A step-by-step approach makes it easier to build your skills and remember the material. 30-day trial access to TruCode Encoder Essentials gives you experience with using an encoder in addition to separate encoder practice exercises on the Evolve website. Learning Objective and glossary review questions are included at the end of each chapter. UNIQUE Concrete real-life coding reports, cleared of any confidential information, simulate the reports you will encounter as a coder and help you apply coding principles to actual cases. Instructor-led assessments on the companion Evolve website provide additional assessment options in classroom settings; answers and rationales provided at the discretion of your instructor. UNIQUE Four coding question variations covering both single code questions and multiple code questions and scenarios develop your coding ability and critical thinking skills. Over 450 total illustrations help you understand the types of medical conditions and procedures being coded, along with examples taken directly from Elsevier's professional ICD 10 and HCPCS manuals. Official Guidelines for Coding and Reporting boxes show the official guidelines wording for inpatient and outpatient coding alongside in-text explanations. UNIQUE Coders Index in the back of the book makes it easy to quickly locate specific codes. Exercises, Quick Checks, and Toolbox features reinforce coding rules and concepts and emphasize key information. Valuable tips and advice are offered in features such as From the Trenches, Coding Shots, Stop Caution, Check This Out, and CMS Rules. Sample electronic health record screenshots located in Appendix D show examples similar to the EHRs you will encounter in the workplace. NEW Updated content includes the latest coding information available, promoting accurate coding and success on the job. NEW Additional exercise questions covering the Official Guidelines for Coding and Reporting.

*Physicians Fee & Coding Guide*, 2011. *Learning to Code with CPT/HCPCS 2011*. Thomas Falen, Alice Noblin, Brandy Ziesemer, 2010-12-06. 3rd YEAR 2011 ANNUAL UPDATE. Updated for 2011, this book will be the primary textbook for CPT HCPCS coding courses for Health Information Management (HIM), Medical Billing, Insurance, and Coding. MBIC Health Information Technology (HIT) and Health Administration Services (HSA) programs. Using a template similar to our *Learning to Code with ICD 9 CM* textbook, this book teaches students how to code with CPT HCPCS using real-world medical record examples.
