Been There. Done That. Try This! Craig Evans, Anita Lesko, Dr Anthony Attwood, 2014-02-21 **Been There Done That Try** This gathers a team of top Aspie mentors to pass along insights for successful living to the next generation Temple Grandin Liane Holliday Willey and many others offer advice on coping with key stressors including anxiety self esteem careers and friendship Each chapter ends with commentary from Dr Tony Attwood **My Life in Institutions and My Way Out** Michael Joseph Kennedy, 2014-06-19 This is the story of Michael Kennedy's life Born in 1960 with significant disabilities he describes his early experiences living in three different institutions for the mentally retarded and how he had to become his own advocate if he was going to survive He soon realized that unlike most of the others in institutions he could make his voice heard He had to speak up to help himself and other individuals with developmental disabilities to learn about their rights and how to prevent themselves from becoming trapped forever within complicated state bureaucracies After moving out of the last institution into various types of supported living settings Michael describes how he found new friendships went to school got a real job and began to aspire to having full control of his own life I want to let people know how the state system used to be and that institutions must never be reopened This is a book about hard work resilience and hope It is an extraordinary life story but told by an ordinary man with a clear mission to help others like himself **Been There, Done That: Practical Tips & Wisdom from Cancer Survivors for Cancer Patients** Amor Y. Traceski, 2019-06-14 **Been There Done That Practical Tips Wisdom from Cancer Survivors for Cancer Patients** is first and foremost an HONEST true to life book It contains detailed first hand information of cancer experiences from 19 brave and amazing cancer survivors some of who survived multiple cancers and even metastasis The survivors range in age from 21 to 91 with cancer backgrounds covering cancers of the blood bone marrow chronic lymphocytic leukemia breast triple negative triple positive included colon kidney ovaries pancreas prostate rectum salivary glands and soft tissue sarcoma and skin **Bulletin of State Institutions**, 1899 A Day in the Life of a College Student Leader Sarah M. Marshall, Anne M. Hornak, 2023-07-03 Sarah Marshall and Anne Hornak have done a magnificent job exploring diverse contexts in which college students expand their individual leadership capacity and learn and practice engaging in relational leadership with others These cases are realistic because they were gathered from their interviews with real students engaging in leadership From whatever perspective students can learn that they are doing leadership when they work with others to address shared issues solve shared problems and work toward positive change from the Foreword by Susan R Komives This book presents over 230 case studies that reflect typical issues faced by undergraduate student leaders The scenarios cover the range of functional areas of student life These cases are intended for use by faculty and student affairs professionals as training tools for new student leaders who generally receive little preparation before assuming their positions Cases provide an opportunity for students to roleplay and discuss scenarios before they encounter potentially similar events in their daily lives as leaders engage students intensely in their

learning as they work through the issues and problems and promote meaningful dialogue and discussion of relevant theory. The cases are based on real life dilemmas and reflect both contemporary and historical campus issues. They are derived from interviews with 110 undergraduates and 11 student affairs administrators from large public research institutions, small privates, community colleges and mid sized comprehensive schools. The book begins with guidance on how to use case studies effectively and on how to incorporate theory in analyzing them. The cases are then grouped into chapters each of which focuses on a particular type of student organization. The cases vary in length to allow for multiple uses. Shorter cases can be role played and discussed in leadership training workshops while longer cases can be used as take home assignments or debated during longer training sessions. The book concludes with general advice for student leaders. To assist with the facilitation process the authors provide discussion questions to begin the analysis of each case. The cases are written broadly enough to allow for a variety of possible solutions.
