

THE BEGINNER'S GUIDE TO FACEBOOK CUSTOM AUDIENCES

IDENTIFYING YOUR AUDIENCE

Know what you're selling: Knowing your product inside and out is one of the first steps to knowing who you're selling to.

Hold surveys: One of the most accurate ways to know who you're selling to is to go straight to the source. Send out an email or link to a page on your website that asks your customers more about themselves and what it is they're looking for regarding content and services.

Use Facebook: You can do this via location the insights tab and then clicking on the People tab. This page will display the information you need regarding the type of audience you're attracting, which will allow you to better optimize your content.

INTEREST-BASED AUDIENCES

Yet another option offered by Facebook is the ability to filter your audience according to interests. Facebook may also make suggestions based on the interests you've already selected. The thing to know about interest-based marketing is that it really broadens your audience.

TRUST THE PROCESS

The waiting game is a difficult one, and this is especially true when you're waiting to turn a profit. It's ultimately best, however, to allow time for Facebook's algorithm to do its work as opposed to consistently adjusting your target until you see the results you want.

Facebook Marketing Jack Sanchez, 2018-11-13 According to statistics Facebook is home to over 1 5 billion active unique monthly users and generates a whopping 400 million visits every day So it goes without saying that Facebook aside from being a virtual space for friends to connect also shines with the promise of being the single most effective vehicle for businesses aiming to reach a wider audience And for most businesses today Facebook has served as just that Back in November of 2007 Zuckerberg saw Facebook s potential as the ultimate internet go to for people who want to find local businesses and products they might be interested in Since then the company has executed a variety of functions that cater specifically to businesses to help them maximize the gains of using Facebook as a platform to connect with real prospects without having to go out and find them These days any business that can t be found

on Facebook is considered obsolete and outdated With 90% of consumers looking first to Facebook in search of products and services business that operate exclusively outside of the platform risk losing visibility in the midst of thick competition Plus people feel more comfortable transacting with businesses through Facebook It s convenient it s easy and it s familiar and studies have found that prospects that reach out to businesses on Facebook tend to feel more secure knowing they re dealing with an entity that they can trust Why Well it s not entirely clear why Facebook brings an air of familiarity and reliability but many experts believe it s because the platform is used to connect with friends *Facebook for Small Business* ,2011
