Security and Chinese Politics Juha A. Vuori, 2014-10-24 This book examines how critical approaches to security developed in Europe can be used to investigate a Chinese security issue the case of the Falungong The past few decades have produced a rich field of theoretical approaches to security in Europe In this book the security specific notions of securitization the politics of insecurity and emancipation are used as analytical approaches to investigate the anti Falungong campaign in the People's Republic of China This campaign launched in 1999 was the largest security related propaganda campaign since 1989 and was directed against a group of qigong practitioners who were presented as a grave threat to society The campaign had major impacts as new security legislation was established and human rights organizations reported severe mistreatment of practitioners This book approaches one empirical case with three approaches in order to transcend the tendency to pit one approach against another It shows how they highlight different aspects in investigation and how they can be combined to gain more comprehensive insights and thereby invigorate renewed debate in the field Furthermore this is used as a vehicle to discuss more general philosophical issues of theory development and theory development and will assist students to comprehend the effects research framework selection has on a piece of research Such discussions are necessary in order to apply the frameworks in investigations that go beyond the socio political context they were originally developed in This book will be of interest to students of critical security studies Chinese politics research methods and IR in general **Critical Security Studies and World Politics** Ken Booth, 2005 An essential introduction to the new critical thinking about security linking theory and politics The Palgrave Encyclopedia of Global Security Studies , 2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world **Critical Approaches to Security** Laura J. Shepherd, 2013 Focusing on critical approaches to security this new textbook offers readers both an overview of the key theoretical perspectives and a variety of methodological techniques With a careful explication of core concepts in each chapter and an introduction that traces the development of critical approaches to security this textbook will encourage all those who engage with it to develop a curiosity about the study and practices of security politics Challenging the assumptions of conventional theories and approaches unsettling that which was previously taken for granted these are among the ways in which such a curiosity works Through its attention to the fact that and the ways in which security matters in global politics this work will both pioneer new ways of studying security and acknowledge the noteworthy scholarship without which it could not have been thought This textbook will be essential reading to advanced undergraduate and postgraduate students of critical security studies and highly recommended to students of traditional security studies International Relations and Politics *Security* Lee Jarvis, Jack Holland, 2014-12-12 This major new text provides an accessible yet intellectually rigorous introduction to contemporary Security Studies It focuses on eight fundamental debates relating to international security

integrating a wide range of empirical issues and theoretical approaches within its critical interrogation of these An accessible yet intellectually rigorous overview of contemporary Security Studies serving as the perfect introduction to the latest research on security discourses threats and technologies How Can Critical Security Studies Approaches be Applied to the 'the War on Terrorism'? Felix Seidler, 2009-11 Essay from the year 2009 in the subject Politics Political Theory and the History of Ideas Journal grade 73 von 100 Punkten The University of Sydney Center for International Security Studies course New Security Challenges language English abstract This essay deals about the approaches of Critical Security Studies CSS to the the War on Terrorism WoT To understand the approaches of CSS it is important to know that this view has its origin in the critique of the traditional approaches realism and liberalism A consequence of this is CSS do not see the state as most important referent object In contrast to realism and liberalism it is the approach of CSS to look for alternative referent objects beside the state But CSS are not just one approach It is divided into different schools or drifts This essay wants to research how these schools and drifts analyse the WoT Central to this are the paragraphs 2 and 3 which deal about Welsh School and Copenhagen School These two are most important drifts inside CSS The other drifts will be discussed in paragraph 4 Afterwards in paragraph 5 it will be pointed out where the failures and critic points of CSS in general as well as in its drifts are Even if the impacts in its drifts differ CSS is based on the Critical Theory Frankfurt School Habermas and on Poststructuralism Foucault This means on the one hand that CSS does not take the state as the most important referent object but thinks more broadly about the reasons for in security And on the other hand CSS researchers according to Critical Theory claim reality to be socially constructed and want to look behind the empiricist world In context of WoT we will see later that this means a critic on official or governmental standpoints The debates between CSS and governmental or traditional approaches start at the definition of terrorism Definitions of terrorism are broadly discussed in practical politics and in International Relations Critical Terrorism Studies Jacob Stump, Priya Dixit, 2013-05-02 This book is an introduction to critical approaches to terrorism studies While there is a growing body of Critical Terrorism Studies CTS literature devoted to empirical examples and conceptual development very little has been written about how to systematically carry out this kind of research Critical Terrorism Studies fills this gap by addressing three key themes The position of terrorism studies and critical terrorism studies in the discipline of International Relations IR Theoretical and methodological elaborations of critical approaches to the study of terrorism Empirical illustrations of those approaches Drawing upon a range of engaging material the volume reviews a series of non variable based methodological approaches It then goes on to provide empirical examples that illustrate how these approaches have been and can be utilized by students teachers and postgraduate researchers alike to critically and rigorously study terrorism This textbook will be of much interest to students of terrorism studies sociology critical security studies and IR in general Security Studies Norma Rossi, Malte Riemann, 2024-03-15 Security Studies An Applied Introduction offers a transformative tool to understand analyse and engage with the complexities of security in the

modern world This groundbreaking new text redefines the landscape of security studies with the following features Policy Relevant each chapter provides analysis of policy responses to empirical security issues This practical approach offers a toolkit to assess and contribute to real world policy discussions Empirical Application vividly demonstrating the real world relevance of Security Studies with online videos from leading security practitioners to show how theory informs practice Pedagogically Rich comprehensive online resources and chapters features such as security beyond the real and hands on exercises that critically assess real world security responses and their policy implications that offer ways to apply theoretical concepts in a highly innovative way Innovative Structure seamlessly integrating theoretical perspectives with empirical security concerns this textbook offers a non compartmentalised approach to theory and practice Hot Topics placing contemporary creative emerging and underexplored approaches and empirical topics at the forefront including cyber security racism and space security This is the perfect introduction for undergraduate and postgraduate students studying Security Studies and International or Global Security Malte Riemann is Assistant Professor in Contemporary Armed Conflict Leiden University the Netherlands Norma Rossi is Associate Lecturer in International Relations University of St Andrews UK
