*BMW 3-Series 50 Years* Tony Lewin, 2025-11-04 Trace the 50 year success story of BMW's 3 Series in this luxuriously produced and stunningly illustrated volume. From its launch in 1975 with the 316, the 3 Series has moved from strength to strength, defining what it means to be a performance sedan, coupe, wagon. Beloved by enthusiasts worldwide, it is the series benchmarked by all other manufacturers. Whether daily driven, tracked or raced, BMW's 3 Series delivers the goods. BMW 3 Series 50 Years charts the 3 Series design and technical evolution from the 1970s to today, from the clean classic two-box design of the E21 and E30 to the handsome E46 to today's sophisticated G20. The book features a detailed history of the BMW 3 Series by automotive historian and industry analyst Tony Lewin, first person interviews with key designers and engineers, photography from BMW's archive as well as commissioned contemporary photography. Sidebars diving into interesting stories covering design-related models like the Z cars and the collector perspective. The 3 Series is a performance and competition story as well, with no car more storied or critical to BMW's reputation than its vaunted M3. Racing and M3s play out across the book's chapters, providing a performance perspective across the 3 Series 50 years. With decades of showroom performance and competition success, BMW's 3 Series in all its permutations shows no signs of slowing down. **Autocar**, 2005

**BMW Z4** David Lightfoot, 2004 BMW Z4 Design, Development and Production is the story of the creation of the Z4 from the first concept in the summer of 1998 until the delivery of customer cars in October 2002. David Lightfoot had exclusive access to the designers, engineers and production personnel involved in the Z4 and provides an exciting behind-the-scenes look into the process. Never before has the story been told of how BMW brings together creative people and world-renowned technical resources to deliver dream machines to its devoted clientele. David Lightfoot is a BMW enthusiast of the first order. He writes for *Roundel*, the publication of the BMW Car Club of America, on topics ranging from BMW history to future products and development. A particular interest is high performance driving; he has been an instructor with his local BMW Club for more than 20 years. The irony of his driving style and his last name have been brought to his attention many times. He is a lifelong resident of Seattle, Washington. This is his first book. **Standard Catalog of Imported Cars**

With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis Technical Data, Options and Historical Information. Gautam Malkani, 2007-08-28 A talented new writer whose portrayal of the serious business of assimilation and young masculinity is disturbing and hilarious. Hailed as one of the most surprising British novels in recent years, Gautam Malkani's electrifying debut reveals young South Asians struggling to distinguish themselves from their parents' generation in the vast urban sprawl that is contemporary London. Chronicling the lives of a gang of four young middle-class men: Hardjit the violent enforcer, Ravi the follower, Amit who's struggling to come to terms with his mother's hypocrisy, and Jas desperate to win the approval of the others despite lusting after Samira, a Muslim girl. Londonstani is funny, disturbing, and written in the exuberant language of its protagonists. It's about tribalism, aggressive masculinity, integration, alienation, bling-bling economics, and complicated family-related shit.
