high profit trucks and SUVs the Big Three missed a golden opportunity to win back the American car buyer Foreign companies like Toyota and Honda solidified their dominance in family and economy cars gained market share in high margin luxury cars and in an ironic twist soon stormed in with their own sophisticatedly engineered and marketed SUVs pickups and minivans Detroit suffering from a good enough syndrome and wedded to ineffective marketing gimmicks like rebates and zero percent financing failed to give consumers what they really wanted reliability the latest technology and good design at a reasonable cost Drawing on a wide range of interviews with industry leaders including Toyota s Fujio Cho Nissan s Carlos Ghosn Chrysler s Dieter Zetsche BMW s Helmut Panke and GM s Robert Lutz as well as car designers engineers test drivers and owners Maynard presents a stark picture of the culture of arrogance and insularity that led American car manufacturers astray Maynard predicts that by the end of the decade one of the American car makers will no longer exist in its present form
