**I**n the overall impression of spaciousness, even freedom, that really catches the eye, so we invite you to check out the interior, inch by inch.

Examine the finish of the seats, the perfect fit of all components, the materials on the roof and side panels. Check the armrests, controls and levers, steering wheel. Perfect finish whenever you look.

The automatic seat belt adjustment for front passengers is just one of the carefully conceived new features: the height of the belt anchorage changes with the longitudinal positioning of the seats.

As for the new ergonomic rear seat belt system, that's nothing short of revolutionary. Because here we've done everything the opposite way round from usual.

The reversed alignment of the shoulder straps prevents passengers sliding into the middle of the car. Another innovation is the enhanced central locking. With the doors locked, it automatically closes all side windows and the electric steel sliding/swing roof, one after the other. For best convenience and security.

None calls for a two pronged attack. First, you have to make sure that as little as possible occurs to begin with. Second, what little remains must be eradicated mercilessly.

Research into cause and effect, counter measures, tools. Using measuring instruments more sensitive than the keenest human ear.

With the 75i, once the inside temperature has been selected, it is controlled and kept at that constant level electronically. Both driver and front passenger have their own variable and independent temperature controls each of them can choose their own personal climate.

A sophisticated system ensures that this temperature control always operates with optimum effi-

ciency and reliability on the driver's and front passenger's side.

Additional features for optimum air conditioning are the auxiliary water pump for high heater output also at low engine speeds, a quiet but highly efficient radial blower and cylindrical grills with large openings and wide flow angles. Optimum air conditioning.

Shifting positions of up to three different drivers' seat belts.
