**Patient Safety** Abha Agrawal, Jay Bhatt, 2023-10-16 This book aims to serve as a playbook and a guide for the creation of a safer healthcare system in the contemporary healthcare ecosystem. It meets this goal through examinations of clinical case studies that illustrate core principles of patient safety, coverage of a broad range of medical errors including medication errors and solutions to reducing medical errors that are widely applicable in many settings. Throughout the book, the chapters offer viewpoints from healthcare leaders, accomplished practitioners, and experts in patient safety. In addition to highlighting important concepts in patient safety, the book also provides a vision of patient safety in the subsequent decade. Furthermore, it will describe what changes need to fall into place between now and the next 10-15 years to have that future realized. The book presents and analyzes a number of cases to illustrate the most common types of medical errors and to help readers learn the key clinical, organizational, and systems issues in patient safety. Patient Safety 2nd edition is an invaluable text for all physicians, healthcare workers, policymakers, and residents who are working towards a more equitable and effective healthcare system. *Accreditation Guide* Canadian Council on Hospital Accreditation, 1960 Family Practice in the Eastern Mediterranean Region Hassan Salah, Michael Kidd, 2018-10-26 This is the first book to analyze in depth the current causes of shortage of family physicians and the relative weakness of the family practice model in many countries in the Eastern Mediterranean Region.
