Khullar, 2023-01-01 Achieving the lofty Goal 4 of the UNSDGs which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all will require the entire education system to be reconfigured, a fact as aptly underlined in the National Education Policy 2020 of India. This would essentially entail putting in place a very effective educational governance devised and formulated on the basis of cutting edge research outputs. Three Volumes of the present book is a modest yet maiden attempt to comprehend and unfold the blending of diverse research methodologies and amply demonstrate through empirical findings that innovative policies and interventions curated on the basis of this approach of research can ensure quality education. Governance emerges as one of the core areas for research. Therefore, Volume I provides a wide canvas of governance in general and educational governance in particular for research, along with a unique opportunity to elaborate both the theory and practice of Quantitative, Qualitative, and Participatory Methodologies in researching governance that is the frontier challenge looking for suitable answers. Volume II uniquely comprehends multiple aspects of quality in dynamic and wider perspectives as perceived by the primary stakeholders including community.
