will be of interest to students academics and policymakers with an interest in all things Taiwan Convergence or Conflict in the Taiwan Strait J Michael Cole, 2016-09-19 Years of rapprochement between Taiwan and China had convinced many that the Taiwan issue had been resolved and that it was only a matter of time before the two former opponents would reunite under One China But a reenergized civil society motivated by civic nationalism and a desire to defend Taiwan's liberal democratic way of life has dashed such hopes and contributed to the defeat of the China friendly Kuomintang in the 2016 presidential elections This book draws on years of on the ground research and reporting to shed light on the consolidation of identity in Taiwan that will make peaceful unification with China a near impossibility It traces the causes and evolution of Taiwan's new form of nationalism which exploded in the form of the Sunflower Movement in 2014 and analyses how recent developments in China and Hong Kong under one country two systems have reinforced a desire among the Taiwanese to maintain their distinct identity and the sovereignty of their nation It also explores the instruments at China's disposal from soft power to coercion as well as the limits of its influence as it attempts to prevent a permanent break up between the two sides of the Taiwan Strait Finally the book argues against abandonment and suggests that international support for Taiwan as it negotiates its complex relationship with China is not only morally right but also conducive to regional and global stability Acting as both a sequel and a rebuttal to earlier publications on Taiwan China relations this book takes an intimate and anthropological look at Taiwan's youth and civil society and applies this to traditional analyses of cross strait politics It will appeal to students and scholars of Taiwanese Politics Chinese Politics International Relations and Sociology

Contemporary Taiwanese Cultural Nationalism A-Chin Hsiau, 2003-09-02 Drawing on a wide range of Chinese historical and contemporary texts Contemporary Taiwanese Cultural Nationalism addresses diverse subjects including nationalist literature language ideology the crafting of a national history the impact of Japanese colonialism and the increasingly strained relationship between China and Taiwan This book is essential reading for all scholars of the history culture and politics of Taiwan *Taiwan* Chris Shei, 2021-03-01 Taiwan Manipulation of Ideology and Struggle for Identity chronicles the turbulent relationship between Taiwan and China This collection of essays aims to provide a critical analysis of the discourses surrounding the identity of Taiwan its relationship with China and global debates about Taiwan's situation Each chapter explores a unique aspect of Taiwan's situation fundamentally exploring how identity is framed in not only Taiwanese ideology but in relation to the rest of the world Focusing on how language is a means to maintaining a discourse of control Taiwan Manipulation of Ideology and Struggle for Identity delves into how Taiwan is determining its own sense of identity and language in the 21st century This book targets researchers and students in discourse analysis Taiwan studies Chinese studies and other subjects in social sciences and political science as well as intellectuals in the public sphere all over the globe who are interested in the Taiwan issue *Taiwan and The 'China Impact'* Gunter Schubert, 2015-12-14 There can be no doubt that China's economic and political rise is having a stronger effect on Taiwan than on any other country given

the Chinese government's claim to sovereignty over Taiwan and Taiwan's quest to maintain its democratic achievements and political identity as a sovereign state. Against this background, this volume deals with the bigger picture of evolving relations across the Taiwan Strait, departing from the observation that China's impact on Taiwan has become stronger over the last 20 years. This book analyses the China impact on Taiwan in terms of its social, political, and security space from both an empirical and conceptual point of view. It is the first comprehensive account of China's multifaceted impact on the politics and society of contemporary Taiwan, written by renowned scholars from Taiwan, Europe, and the U.S. The book covers a wide range of topics, including Taiwan's party alignment, elections, generational politics, cross-strait political economy, immigration policy, and security. The contributors, political scientists and sociologists, highlight both the dangers and the opportunities of the China impact for Taiwan and draw a realistic picture of the island republic's current situation and future options in the shadow of its giant neighbour. Based on qualitative and quantitative data, this volume intends to fill a gap in the Taiwan studies field by studying the China impact on Taiwan's politics and society systematically and from a comparative perspective. By doing so, it will be of great interest to students and scholars of Taiwan studies and East Asian politics and society more generally.

Taiwanese Identity in the 21st Century Gunter Schubert, Jens Damm, 2012-01-30. As we look to enter the second decade of the 21st century, Taiwan's quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics. From here, it spills over into the cross-strait relationship and impacts on regional and global security. Whether Taiwan is a nation-state or whether Taiwan has any claim to be a nation-state and how Taiwan should relate to China are issues which have long been hotly debated on the island, although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan's claim to sovereignty as the Republic of China. The collection of chapters in this book sheds light on very different aspects of Taiwan's current state of identity formation from historical, political, social, and economic perspectives, both domestically and globally. As such, it will be invaluable reading for students and scholars of Taiwan studies, politics, history, and society, as well as those interested in cross-strait relations, Chinese politics, and Chinese international relations.

Taiwan's Relations with Mainland China Chi Su, 2008-09-11. Taiwan's Relations with Mainland China is the first book to deal with the role of Taiwan's leadership, politics, including the personal political styles of Lee Teng-hui and Chen Shui-bian in the development of Taiwan's mainland policy and the consequences for U.S.-Taiwan relations. Including analysis of the critical and volatile 1988-2004 period, the Taiwan Straits crisis, and cross-strait tension associated with the 2004 Taiwan presidential campaign, Su Chi weaves in his personal participation in Taiwan policy making during critical periods in Taiwan's diplomatic history to provide insight and information on cross-strait relations that is not available elsewhere. As a study of Taiwan's mainland and U.S. policy, this will be a fascinating read for students and scholars of Taiwan Politics, Chinese Foreign Policy, and East Asian Security studies alike.

Culture, Politics and Linguistic Recognition in Taiwan

Jean-Francois Dupre, 2017-02-24 The consolidation of Taiwanese identity in recent years has been accompanied by two interrelated paradoxes a continued language shift from local Taiwanese languages to Mandarin Chinese and the increasing subordination of the Hoklo majority culture in ethnic policy and public identity discourses A number of initiatives have been undertaken toward the revitalization and recognition of minority cultures At the same time however the Hoklo majority culture has become akin to a political taboo This book examines how the interplay of ethnicity national identity and party politics has shaped current debates on national culture and linguistic recognition in Taiwan It suggests that the ethnolinguistic distribution of the electorate has led parties to adopt distinctive strategies in an attempt to broaden their ethnic support bases On the one hand the DPP and the KMT have strived to play down their respective de Sinicization and Sinicization ideologies as well as their Hoklo and Chinese ethnocultural cores At the same time the parties have competed to portray themselves as the legitimate protectors of minority interests by promoting Hakka and Aboriginal cultures These concomitant logics have discouraged parties from appealing to ethnonationalist rhetoric prompting them to express their antagonistic ideologies of Taiwanese and Chinese nationalism through more liberal conceptions of language rights Therefore the book argues that constraints to cultural and linguistic recognition in Taiwan are shaped by political rather than cultural and sociolinguistic factors Investigating Taiwan's counterintuitive ethnolinguistic situation this book makes an important theoretical contribution to the literature to many fields of study and will appeal to scholars of Taiwanese politics sociolinguistics culture and history

Connecting Taiwan Carsten Storm, 2018-05-15 Taiwan has often been characterised as an isolated society in its search for sovereignty and security Its contact with the world in an era of globalization and post modernity however has increasingly led to Taiwanese actors successfully participating in many regional and global fields In this book an international team of scholars presents cases studies and theoretical debates emphasising agency in coping with the effects of globalisation In so doing they contest the image of Taiwan's marginalization and seek to understand it in terms of its connectedness whether globally regionally or trans nationally Taking a multi disciplinary comparative approach it covers themes such as markets and trading diplomacy and nation branding collective action media film and literature and religious mission It thus combines perspectives from several disciplines including media studies sociology political science and studies in religion Using Taiwan as an example of how to conceptualise connectivity and think differently about comparative studies this book will be useful for students and scholars of Asian Politics and Cultural Studies as well as of Taiwan Studies more specifically

Taiwan's Socio-Economic Relations with Mainland China Winnie King, 2013-12-31 Most studies of Taiwan mainland China relations have focused on government policies and international strategic issues As this book shows however an increasingly important factor driving Taiwan mainland China relations is the role of non state actors The book examines four areas of interaction cross Strait education policy cross Strait marriages and marital migration business and the role of informal institutions especially the Taiwanese Businessmen's Association in supporting trade and the

role of entrepreneurs as the initiators and drivers of official Taiwanese policy The book shows how very considerable the links are all areas how links do not always lead to formal integrative policies as with the failure of the campaign for the recognition of mainland China degrees in Taiwan but how especially with business and trade the links between Taiwan and mainland China are strong and growing *Literary Representations of "Mainlanders" in Taiwan* Phyllis Yu-ting Huang, 2020-11-22 This book examines literary representations of mainlander identity articulated by Taiwan's second generation mainlander writers who share the common feature of emotional ambivalence between Taiwan and China Closely analyzing literary narratives of Chinese civil war migrants and their descendants in Taiwan a group referred to as mainlanders waishengren this book demonstrates that these Chinese migrants ideas of China and Chineseness have adapted through time with their gradual settlement in the host land Drawing upon theories of Sinophone Studies and memory studies this book argues that during the three decades in which Taiwan moved away from the Kuomintang's authoritarian rule to a democratic society mainlander identity was narrated as a transformation from a diasporic Chinese identity to a more fluid and elusive Sinophone identity Characterized by the features of cultural hybridity and emotional in betweenness mainlander identity in the eight works explored contests the existing Sinocentric discourse of Chineseness An important contribution to the current research on Taiwan's identity politics this book will be of interest to academics in the field of Taiwan studies Sinophone studies Chinese migration and Taiwanese literature as well as Chinese literature in general Contemporary Taiwan David Shambaugh, School of Oriental and African Studies, 1996 *Politics of Difference in Taiwan* T.W. Ngo, Hong-zen Wang, 2011-05-10 Offering systematic coverage of major social groups including ethnic minorities recent migrants gay and lesbian groups religious sects and marginalized workers this is the first study to investigate the multiple facets of social domination in Taiwan and the ongoing struggles by minority groups to overcome subordination *Switching Diplomatic Recognition Between Taiwan and China* Chien-Huei Wu, 2024 This book examines the economic and social impacts of switching diplomatic relations from Taiwan to China and vice versa and investigates how China achieves its foreign policy objective of dissuading Taiwan's diplomatic partners and other third parties from engaging with Taiwan Highlighting critical the regions of Africa Latin America and Caribbean and Oceania where the diplomatic competition between Taiwan and China is fierce the contributions to this book analyse China's promises of economic benefits threats of economic coercion and the perils of its foreign aid to the countries in these regions in pursuit of its anti Taiwan policy In addition to the competition of formal diplomatic ties it also examines how existing informal relations have influenced Taiwan's increasing interactions with Central and Eastern European countries Finally the book explores how Taiwan's advantage in technology sectors has successfully been translated into economic leverage for Taiwan's international diplomacy Built upon the interdisciplinary expertise and collaborative efforts of 14 international scholars this book will be a valuable resource to scholars and students of Taiwan studies China studies and international relations
