Distributed Computer Control Systems 1989 L. Motus, S. Narita, 2014-07-04 The focus of the workshop was on recent advances in the theory applications and techniques for distributed computer control systems Topics included tools and methods for inner layers of DCCS application papers presenting operational DCCS the infiltration of true real time or time critical concepts and the emergence of artificial intelligence methods in DCCS applications leading to novel computer architectures being integrated in computer networks The book will be of interest not only to those involved in DCCS but also software engineers and distributed computing scientists *Data Structure, Algorithms and Design Techniques* Jitendra Patel, **Advanced Environments, Tools, and Applications for Cluster Computing** Dan Grigoras, Alex Nicolau, Bernard Toursel, Bertil Folliot, 2003-08-01 Started by small group of well known scientists with the aim of sharing knowledge experiences and results on all aspects of cluster computing the initiative of a workshop on cluster computing received more attention after IFIP WG 10.3 and IEEE Romania Section accepted our request for sponsorship Moreover the application for a NATO ARW grant was successful leading to a greater interest in the workshop In this respect we have to say that we chose Romania in order to attract scientists from Central and Eastern European countries and improve the cooperation in the region in the field of cluster computing We had an extremely short time to organize the event but many people joined us and enthusiastically contributed to the process The success of the workshop is wholly due to the hard work of the organizing committee members of the program committee key speakers speakers from industry and authors of accepted papers The workshop consisted of invited and regular paper presentations followed by discussions on many important current and emerging topics ranging from scheduling and load balancing to grids The key speakers devoted their time and efforts to presenting the most interesting results of their research groups and we all thank them for this All papers were peer reviewed by two or three reviewers Expected Performance of M-solution Backtracking Institute for Computer Applications in Science and Engineering, D.
