**Computer Networks** Behrouz A. Forouzan, 2011

**Computer Networks** Behrouz A. Forouzan, Firouz Mosharraf, 2012

This new networking text follows a top down approach. The presentation begins with an explanation of the application layer which makes it easier for students to understand how network devices work and then with the students fully engaged the authors move on to discuss the other layers ending with the physical layer. With this top down approach its thorough treatment of the topic and a host of pedagogical features this new networking book offers the market something it hasn't had for many years: a well-crafted modern text that places the student at the center of the learning experience. Forouzan's *Computer Networks* presents a complex topic in an accessible student-friendly way that makes learning the material not only manageable but fun as well. The appealing visual layout combines with numerous figures and examples to provide multiple routes to understanding. Students are presented with the most up-to-date material currently available and are encouraged to view what they are learning in a real-world context. This approach is both motivating and practical in that students begin to see themselves as the professionals they will soon become.

The fifth edition of Behrouz Forouzan's *Data Communications and Networking* presents a comprehensive and accessible approach to data communications and networking that has made this book a favorite with students and professionals alike. More than 830 figures and 150 tables accompany the text and provide a visual and intuitive opportunity for understanding the material. The global edition has been developed specifically to meet the needs of international computer networks students. In addition to a chapter on the peer-to-peer paradigm, a full chapter on quality of service (QoS), generous coverage of forward error correction, coverage of WiMAX and material on socket interface programming in Java, we have added new international end-of-chapter questions and problems to make the content more relevant and improve learning outcomes for the international student.
