The Fountas & Pinnell Literacy Continuum Irene C. Fountas, Gay Su Pinnell, 2016
There has never been a more comprehensive resource available to teachers that does what the continuum does: provide specific behaviors and understandings that are required at each level for students to demonstrate thinking within and beyond the text. These behaviors and understandings describe what students will be expected to do in order to effectively read and understand the text. More in depth, more intuitive, and more essential than ever, *The Fountas Pinnell Literacy Continuum Expanded Edition* enables teachers to construct a common vision for student achievement that effectively and efficiently engages all students in the robust, authentic, and meaningful literacy learning every child deserves. *The Literacy Continuum* provides a way to look for specific evidence of learning from prekindergarten through grade eight and across eight instructional contexts. Each instructional context contributes substantially in different but complementary ways to students' development of the literacy process. With this indispensable literacy tool, Fountas and Pinnell remind you of *The Literacy Continuum's* critical role in transforming literacy teaching and learning. Re-discover *The Fountas Pinnell Literacy Continuum Expanded Edition* to elevate your language and literacy expertise, develop an understanding of the demands of texts on readers, build your understanding of the reading and writing process, and how it changes over time, hone your observation of students' literacy behaviors, teach toward student integration of the Systems of Strategic Actions, articulate the literacy curriculum within and across grade levels, activate the responsive teaching that meets students where they are, and bring them forward with intention and precision. Build professional learning opportunities with colleagues, create a common vision and common language for literacy in your school. Look for these new enhancements inside:

- Streamlined organization and navigation
- Expanded behaviors and examples across the continua
- First appearance of a behavior or goal or text characteristic indicated by a red square
- Behaviors are acquired and then elaborated over time
- Clear organization of and explicit links to the Systems of Strategic Actions
- Four color design for clarity and focus

The purpose of this book is to operationalize that is, make meaningful the Guidelines for Appropriate Curriculum Content and Assessment developed jointly by the National Association for the Education of Young Children (NAEYC) and the National Association of Early Childhood Specialists in State Departments of Education (NAECS SDE) in 1991. The guidelines were designed to address two basic problems: the early childhood error, inadequate attention to the content of the curriculum, and the elementary error, overattention to curriculum objectives with less attention to the individual child. The document focuses on ways in which children, teachers, and administrators, as well as curriculum and assessment tools, can reach or be used to their full potential. The first section on reaching potentials through appropriate curriculum and assessment includes four chapters: 1. Reaching Potentials: Introduction by S. Bredekamp and T. Rosegrant; 2. Guidelines for Appropriate Curriculum Content and Assessment in Programs Serving Children Ages 3 through 8, a position statement of the NAEYC/NAECS SDE; 3. Reaching Potentials through Appropriate Curriculum: Conceptual Frameworks for Applying the Guidelines by S. Bredekamp and T. Rosegrant; and 4. Reaching Potentials through Appropriate Assessment by T. W. Hills. The next section on reaching individual potentials includes: Reaching Individual Potentials through Transformational Curriculum by T. Rosegrant and S. Bredekamp; Planning and Implementing Transformational Curriculum by T. Rosegrant and S. Bredekamp; and Reaching Potentials of Children with Special Needs by M. Wolery, P. S. Strain, and D. B.
