Compare Minority Report And Blade Runner:

Blade Runner and the Cinema of Philip K. Dick Jeremy Robinson, 2009 A study of the classic science fiction film Blade Runner 1982 and movies based on the fiction of Philip K Dick 1928 1982 **The Blade Runner Experience** Will Brooker, 2005 This text examines Ridley Scott's Blade Runner in context of adaptation both from the original novel but also as graphic novel computer game and series of books It also looks at the identities of the characters particularly with reference to influences and realities **Film Studies** Warren Buckland, 2003 Both film buffs and students of the cinema will find this reference indispensable It gives a chronological overview of film analyzing genres such as westerns and sci fi explores different artistic approaches techniques and effects and profiles a wide variety of directors from Alfred Hitchcock to Steven Spielberg The book uncovers the secrets of film reviewing and the conventions reviewers adopt when they evaluate films This new edition includes an expanded section concerning film studies on the Internet Whatever readers interest in film Teach Yourself Film Studies will provide them with the skills to turn them into well informed film critics **Future Imperfect** Jason P. Vest, 2007-06-30 Philip K Dick was one of the most incisive subversive and entertaining authors of the last half of the twentieth century and the increasing levels of respect and interest that his fiction and films have generated since the 1982 release of Blade Runner have made a comprehensive assessment of these films a virtual necessity Future Imperfect is the only work to examine the cinematic adaptations of Dick's work in their entirety Not all cinematic adaptations of Dick's work have been equally successful but they have all at least made a similar effort to capture his evocative paranoid and compassionate view of humanity's precarious place in a fallen world a world where rapidly proliferating technology stultifying bureaucracy and widespread political chicanery threaten both our bodies and our minds Author Jason Vest seeks here to answer the question of how filmmakers as diverse as Ridley Scott Paul Verhoeven Steven Spielberg and Richard Linklater have each in their turn expanded extrapolated and diverged from Dick's fiction in order to translate Dick's powerful and challenging insights on to the screen in a visual and yet still literary form Dick's is a singular voice in American literature and Future Imperfect aims to gauge exactly how well the cinematic adaptations of Dick's work have captured his unique vision of the human future and how deeply Dick's storytelling abilities have influenced the development of science fiction films from Blade Runner on Students and general readers interested in science fiction literature and film should find this an incredibly valuable work as should film enthusiasts concerned with the issue of adaptation itself Author Jason Vest is an expert in both American literature and the science fiction genre This marks the first book length investigation of Dick's influence on the science fiction genre and also includes some of the more extended criticism on several seminal science fiction films Sound & Vision , 2003 **Analysis of Speech Acts in Movie Dialogues on the Example of Ridley Scott's Bladerunner** Robert Kampf, 2010-04-25 Seminar paper from the year 2004 in the subject Communications Movies and Television grade keine University of M nster Englisches Seminar language English abstract This survey will show that

stylistic theories especially the analysis of dialogues in terms of speech acts turn taking and politeness can be applied to movies The intention is to show that these theories previously applied to literature enable us to access a complete new level of movie analysis Language and narrative features in movies are similar to the features in written fiction like novels and can be valued under same criteria The analysis will focus on two interrogation scenes using the effect of speech acts combined with performance features in order to create a realistic picture of the Replicant itself This fictional artificial lifeform has a decisive role in the plot of Bladerunner for the difference between humans and Replicants can only be made out from deviations in language gesture and reactions These criteria will be looked at in reference to Mick Short s and Michael Toolan s basic stylistic theories The primary objective is to reconstruct the way Scott uses language to outline the characteristics of Replicants from human behavior Another ambition is to reconstruct the development of realism in sci fi in respect of the given criteria and to show that it has increased over the last decades
