Frequently Asked Questions in Quantitative Finance Paul Wilmott, 2010-05-27 Paul Wilmott writes Quantitative finance is the most fascinating and rewarding real world application of mathematics It is fascinating because of the speed at which the subject develops the new products and the new models which we have to understand And it is rewarding because anyone can make a fundamental breakthrough Having worked in this field for many years I have come to appreciate the importance of getting the right balance between mathematics and intuition Too little maths and you won't be able to make much progress too much maths and you'll be held back by technicalities I imagine but expect I will never know for certain that getting the right level of maths is like having the right equipment to climb Mount Everest too little and you won't make the first base camp too much and you'll collapse in a heap before the top Whenever I write about or teach this subject I also aim to get the right mix of theory and practice Finance is not a hard science like physics so you have to accept the limitations of the models But nor is it a very soft science so without those models you would be at a disadvantage compared with those better equipped I believe this adds to the fascination of the subject This FAQs book looks at some of the most important aspects of financial engineering and considers them from both theoretical and practical points of view I hope that you will see that finance is just as much fun in practice as in theory and if you are reading this book to help you with your job interviews good luck Let me

know how you get on An Introduction to Exotic Option Pricing Peter Buchen,2012-02-03 In an easy to understand nontechnical yet mathematically elegant manner An Introduction to Exotic Option Pricing shows how to price exotic options including complex ones without performing complicated integrations or formally solving partial differential equations PDEs The author incorporates much of his own unpublished work including ideas **Option Pricing and Estimation of Financial Models with R** Stefano M.
