Diversity in Practice Spencer Headworth, Robert L. Nelson, Ronit Dinovitzer, David B. Wilkins,2016-04-01 Expressions of support for diversity are nearly ubiquitous among contemporary law firms and corporations Organizations back these rhetorical commitments with dedicated diversity staff and various diversity and inclusion initiatives Yet the goal of proportionate representation for people of color and women remains unrealized Members of historically underrepresented groups remain seriously disadvantaged in professional training and work environments that white upper class men continue to dominate While many professional labor markets manifest patterns of demographic inequality these patterns are particularly pronounced in the law and elite segments of many professions Diversity in Practice analyzes the disconnect between expressed commitments to diversity and practical achievements revealing the often obscure

systemic causes that drive persistent professional inequalities These original contributions build on existing literature and forge new paths in explaining enduring patterns of stratification in professional careers These more realistic assessments provide opportunities to move beyond mere rhetoric to something approaching diversity in practice

The Differentiated Math Classroom Miki Murray, 2007 In every mathematics classroom the need for differentiated instruction is present in many it s acute Students learn at different rates in different ways with different successes and different challenges Instruction must be flexible enough to meet everyone s needs and nurturing enough to not only support growth but also address the frustration that often leads to mathphobia The Differentiated Math Classroom can help make high quality differentiated instruction a classroom reality It s the usable comprehensive resource teachers need to help students of all levels and abilities succeed with math Whether you teach math sixty minutes a day or six periods a day The Differentiated Math Classroom describes both the big ideas of differentiation and the day to day teaching that makes it work Miki Murray and Jenny Jorgensen present everything you need to get started and to help all students meet national standards including ideas for Setting up a classroom to maximize opportunities for differentiation and establish community Getting to know students strengths and needs through high quality assessments Devising anchor activities that help students work independently with meaningful math content while you free up time for individual instruction Creating tiered lessons that scaffold content and provide the flexibility to challenge some students and offer assistance to others Murray and Jorgensen offer practical ideas for planning and designing units that engage students and facilitate learning about important math concepts as well as teaching tools questions for professional reflection and answers to teachers most frequently asked questions about differentiation Discover that differentiated instruction is a flexible framework that supports all math learners Filled with examples from real classes and samples of student work The Differentiated Math Classroom will help every child learn more effectively by showing you how to think about students mathematics and your teaching in powerful new ways
