Learning to Teach Geography in the Secondary School David Lambert,David Balderstone,2012-08-21 Learning to

Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography. It helps them acquire a deeper understanding of the role, purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design, teach and evaluate stimulating and creative lessons. This fully revised and updated second edition takes account of new legislation and important developments in geography education including literacy, numeracy, citizenship and GIS. Brand new chapters in this edition provide essential guidance on fieldwork and using ICT in the context of geography teaching and learning. Chapters on teaching strategies, learning styles and assessment place the learner at the centre stage and direct advice and activities encourage successful practice. Designed for use as a core textbook, *Learning to Teach Geography in the Secondary School* is essential reading for all student teachers of geography who aspire to become effective, reflective teachers.

Praise for the first edition of *Learning to Teach Geography in the Secondary School*: This is a practical and visionary book as well as being superbly optimistic. It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere. Practical activities and ideas are set within a carefully worked out, authoritative conceptual framework. *The Times Educational Supplement*: This is a modern, powerful, relevant and comprehensive work that is likely to become a standard reference for many beginning teachers on geography initial teacher training courses in England and Wales. *Educational Review*
