Farmers' Guide ,1898 *The Country Gentleman* ,1918 *The Illustrated London News* ,1880 **Bill of Sale for Dog** ,2007 **Characterization of Advertisements for Puppies Sold Online** Hillary Claire Voris,2010 Abstract Each year hundreds of thousands of puppies are bred and sold in the United States The newest market for puppy sales is the Internet Consumers can view multiple advertisements for puppies in just minutes but there is no information available regarding what information is standard in online advertisements In addition within a breed puppies vary widely in cost It is difficult for a consumer to determine why one puppy might cost so much more than another The goal of this project was to characterize the online market for puppies by documenting the contents of Internet ads for five common breeds Labrador Retriever Yorkshire Terrier Bulldog Boxer and Shih Tzu over a period of three months Traditional breeders for example American Kennel Club AKC breeders have been around for generations The services these breeders provide are well documented Internet breeders are less well understood The second part of this study compared puppies sold by Internet breeders with puppies sold by AKC Parent Club breeders In a period of 14 weeks 3 485 advertisements were reviewed Small breed puppies were most frequently advertised with 35 2% 1 228 3485 of advertisements for Yorkshire Terriers and 23 0% 802 3485 for Shih Tzus Almost one quarter of Internet breeders 768 3 474 22 2% advertised four or more different dog breeds Champion bloodlines increased the cost of a puppy of all breeds AKC Parent Club breeders 21 25 84% were more likely to mention breed specific health screening tests when compared to Internet breeders 7 25 28% The Internet is a large and growing source for puppies Currently breeders who sell puppies online directly to consumers are not subject to any type of regulation As this industry grows some type of oversight will be important The most important difference between Internet and AKC Parent Club breeders is the knowledge and use of breed specific health screening tests Internet breeders are less likely to perform these screening tests on their breeding dogs and may breed dogs with undesirable heritable health risks
