## Cool Science Activities To Do At Home:

**Make Science Fun: Experiments** Jacob Strickling, 2017-11-06 Make Science Fun 2 intended for an older more serious age group of 8-15 is designed for children to do actual science experiments not just science activities at home. Most science experiment books aren't experiment books at all. They mostly contain fun science activities which are fun to do, help learn science, but a fun science activity isn't always an experiment. A science experiment sets out to answer a question or solve a problem using a fair and controlled test. To count as a science experiment, you need to take measurements, make observations, and control variables. With space to write hypotheses, record results, make observations, and draw graphs required. Make Science Experiments is a strong foundation on which to build student awareness of the importance of science in everyday lives. **SELLING POINTS** Science experiments for the kitchen, garage, or workshop, bathroom, and garden. Bonus projects perfect for a science fair or school project. Projects using only basic products that can be found in every home kitchen or bathroom. Make Science Fun banishes the science is boring stereotype through fun experiments that children can do alone or with friends or parents. The author's YouTube channel **Steve Spangler's Super-Cool Science Experiments for Kids** Steve Spangler, 2021-08-24 This book presents the most amazing, visually stunning experiments you can do in your home with equipment you likely have on hand right now. It's all provided by Steve Spangler, the country's most recognized personality devoted to teaching kids about science. Inside, you'll find dozens of easy projects that generate absolutely mind-blowing results. Young readers and their parents will also find a special section of more advanced experiments for those die-hard science fanatics. You'll learn how to make a thermite reaction, air pressure can crusher, sugar holiday ornaments, a stained glass sugar window, egg in a bottle, world's simplest motor, an ice tray battery, washing soap stalactites, a homemade lung, eggshell geodes, and much more. And like Steve's other books, set up and clean up are still fast and super easy. Making Super Cool Experiments the perfect gift for rainy day fun, supplemental school work, or just fascinating projects for curious kids.
