Bullying isn't just punching someone in the face or someone calling you names. Bullying is a lot more than that. There are different types of bullying. It is also making verbal threats of violence or aggression against someone's personal property.

Indirect bullying is spreading rumors about someone, gossiping about it, and excluding others from groups. Indirect bullying is 18.5% of all bullying. If you spread a rumor about a girl in class just because you thought it was funny or if it was because you didn't like her that would be indirect bullying.

Social alienation is when a bully excludes someone from a group on purpose. It also includes spreading rumors, or pointing out someone else's differences. For example if a group of people didn't want to hang out with this girl from their class because they thought she was weird, that would be social alienation.

Intimidation is when a bully threatens or intimidates someone else enough to get the person to do what they want. For example if you told a person to give you money or
