Cycle Of Lies The Fall Of Lance Armstrong:

Cycle of Lies Juliet Macur, 2015-04-07 The definitive account of Lance Armstrong's spectacular rise and fall. In June 2013 when Lance Armstrong fled his palatial home in Texas downsizing in the face of multimillion dollar lawsuits Juliet Macur was there talking to his girlfriend and children and listening to Armstrong's version of the truth. She was one of the few media members aside from Oprah Winfrey to be granted extended one on one access to the most famous pariah in sports. At the center of *Cycle of Lies* is Armstrong himself revealed through face to face interviews. But this unfolding narrative is given depth and breadth by the firsthand accounts of more than one hundred witnesses including family members whom Armstrong had long since turned his back on: the adoptive father who gave him the Armstrong name, a grandmother, an aunt. Perhaps most damning of all is the taped testimony of the late J. T. Neal, the most influential of Armstrong's many father figures recorded in the final years of Neal's life as he lost his battle with cancer just as Armstrong gained fame for surviving the disease. In the end it was Armstrong's former friends, those who had once occupied the precious space of his inner circle, who betrayed him. They were the ones who dealt Armstrong his fatal blow by breaking the code of silence that shielded the public from the grim truth about the sport of cycling and the grim truth about its golden boy Armstrong. Threading together the vivid and disparate voices of those with intimate knowledge of the private and public Armstrong, Macur weaves a comprehensive and unforgettably rich tapestry of one man's astonishing rise to global fame and fortune and his devastating fall from grace.

Cycle of Lies Juliet Macur, 2014 Draws on interviews with more than one hundred people close to the famous athlete to chronicle fourteen critical years in his career from his cancer recovery to his precipitous fall after revelations about his systemic doping became public.

The Comeback Daniel de Visé, 2020-05-14 Greg LeMond was Lance Armstrong before Lance Armstrong, the story of a true hero. This is a must read if you believe in miracles. John Feinstein, New York Times bestselling author. In July 1986 Greg LeMond stunned the sporting world by becoming the first American to win the Tour de France, the world's pre-eminent bicycle race, defeating French cycling legend Bernard Hinault. Nine months later LeMond lay in a hospital bed, his life in peril after a hunting accident, his career as a bicycle racer seemingly over. And yet barely two years after this crisis LeMond mounted a comeback almost without parallel in professional sports. In summer 1989 he again won the Tour, arguably the world's most grueling athletic contest, by the almost impossibly narrow margin of 8 seconds over another French legend, Laurent Fignon. It remains the closest Tour de France in history. A blend of chaos, kindness, and cruelty typifies the scenes that journalist de Visé brings to life in this sympathetic, verging on reverential retelling of LeMond's trailblazing career: first American to enter the tour, first to win it. As an author in quest of his protagonist's motivation, de Visé subjects it to extreme torque. *The Washington Post*: A great book. Well written and thoroughly researched. Engrossing and hard to put down. If you're a Greg LeMond fan, *The Comeback* is a must read because it's a detailed accounting of his career and more importantly his life and person off the bike. It's also an important reminder that

La journaliste lève le voile sur la personnalité d'un homme complexe aux ambitions insatiables et donne les clés de la course effrénée vers ce qui est devenu le système Armstrong, le programme de dopage le plus sophistiqué jamais mis en place que l'idole de la Grande Boucle dirigeait d'une main de fer s'appuyant même sur la complicité des puissants. Avec une rigueur implacable, Cycles de mensonges montre comment Lance Armstrong, la fois manipulateur et séducteur, a rigé autour de lui une forteresse humaine afin de protéger son image, quitte mettre en péril l'existence de qui oserait se dresser sur sa route.
