Gregory of Nazianzus and Ephrem the Syrian Giovanni Colpani, 2025-06-16 Gregory of Nazianzus and Ephrem the Syrian are both regarded as foundational poets for their respective literary traditions. They wrote in the same period, the 4th Century, and they both devoted a cycle of poems to a debated theme of the time: bishops. Aim of this work is enhancing the appreciation of these cycles. Gregory's carmina II 1 10 12 13 17 and Ephrem's carmina nisibena 13 21 as works of literature embedded in the performance and reading practices of the time in theological debates on the episcopal office and in their respective communities. The book compares performance and transmission methods of the two corpora, the word choice and imagery describing the episcopal office and how portraits of real life bishops are influenced by theological expectations on what a bishop should be. Two chapters are devoted to literary phenomena peculiar to each author. This book, the first extensive comparison of these two authors from a literary point of view, will interest scholars of Late Antique poetry and literature, Church history and Patristic theology. A new English translation of both corpora constitutes the appendix. *Law, Culture and Regionalism in Early Medieval Spain* Roger Collins, 2024-10-28 Roger Collins deals here with the history of Spain, specifically Christian Spain, in the period from the 6th to the 10th century, from the Visigoths through the time of the Arab conquests up to the end of the era of Carolingian dominance across the Pyrenees. Particular emphasis indeed is placed upon the importance of this Pyrenean region in the lands now known as France as well as those in Spain, with the author also calling into question the received notion of an Aquitanian identity in the 5th-9th centuries. Of the themes running through this volume, that of regionalism is most evident here and in the articles on the Basques but appears equally, for instance, in the study on the relations between Merida and the Visigothic government. Similarly, legal and cultural themes provide the focus for the articles on the workings of Visigothic law in the 9th-10th centuries or on the intellectual culture of Navarre but recur in other parts of the collection. Two of these articles appear for the first time in English while a third has been re-written for this volume and others supplied with additional notes or illustrations. Roger Collins traite ici de l'histoire d'Espagne et plus particulièrement de celle de l'Espagne chrétienne entre le 6e et le 10e siècle des Visigoths jusqu'à la fin de l'hégémonie carolingienne au nord du pays en passant par les conquêtes arabes. L'importance de la région pyrénéenne recouvrant des terres qui font de nos jours partie de la France ainsi que de l'Espagne est soulignée par l'auteur qui remet par ailleurs en question l'idée reçue d'identité aquitaine qui prévalait entre le 5e et le 9e siècle. Certains thèmes locaux et culturels forment la base d'articles sur le fonctionnement du droit visigoth aux 9e et 10e siècles ou encore sur la culture intellectuelle de la Navarre et ressurgissent d'autres endroits de la collection. Le régionalisme reste cependant le plus prédominant. [An Oxford Companion to the Romantic Age](#) Iain McCalman, Jon Mee, Gillian Russell, Clara Tuite, 1999-07-01 For the first time in this innovative reference book the Romantic Age is surveyed across all aspects of British culture rather than in literary or artistic terms alone. The Companion's two-part structure presents forty-two essays on major topics by leading international experts cross-referenced to an extensive alphabetical section covering all the principal figures, events and movements in the broad

culture of the period Aimed at students and general readers as well as scholars the essays constitute an accessible pluralistic and modern social history of the epoch the alphabetical entries can either be used alongside them for deeper information on specific subjects or as a free standing reference tool The volume as a whole embraces both high and low culture and explores its subject across the whole breadth of England Scotland Wales and Ireland The book s multi disciplinary approach treats Romanticism both in aesthetic terms its meaning for painting music design architecture and above all literature and as a historical epoch of revolutionary transformations which ushered in modern democratic and industrialized society In this period Wedgwood turned taste into a commercial enterprise Pierce Egan took Britain by storm with his sensational accounts of low life in the capital and Mary Shelley created in Frankenstein one of the enduring myths of scientific advance The Companion revitalizes canonical Romantic figures in the context of the historical events political and linguistic debates commercial pressures and plebeian subcultures of their day as well as bringing back into historical focus individuals and events whose impact has often been muffled or forgotten With over 100 integrated illustrations bibliographies accompanying all the major essays and an index to Part 1 this is the most comprehensive volume of its kind offering a unique breadth of information to scholars and students of eighteenth and nineteenth century British culture literature and history EDITORIAL BOARD John Brewer University of California Marilyn Butler Exeter College University of Oxford James Chandler University of Chicago Jerome J McGann University of Virginia Charlottesville Mark Philp Oriel College Oxford Robert Webb University of Maryland
