 Kent,2012-12-06 PREFACE Getting Faster Answers About AutoCAD Whether you are a beginning AutoCAD user a part time
 user or even a long standing user it is virtually impossible to remember every nuance and every option for every AutoCAD
 command and variable We have all had questions like Can I do it this way with that command or How do I get this sequence
 to work It is more important to know where to find information about AutoCAD commands than to remember it all This
 reference guide is designed to give you fast access to AutoCAD s commands variables and key topics Each command variable
 and topic is presented alphabetically and described simply and to the point The complexities of commands and variables are
 explained with tips and warnings learned from experience Why This Book Is Different This guide pulls AutoCAD commands
 variables and topics into one easy to use refer ence that brings important information about every AutoCAD command and
 variable to your fingertips The guide is not limited to a mere listing of commands and variables and what they do It also helps
 you Find commands and variables quickly to get key descriptions Get tips and warnings that will save you time See example
 sequences and screen shots illustrating how to use commands and variables Identify variables for use with commands menu
