**Case Management Resource Guide**, 1997 *Popular Photography*, 2010 *Guide to Microforms in Print*, 2002 **Truth**, 1902 Medieval Manuscripts for Mass and Office Andrew Hughes, 1995-01-01 Many books discuss the theology and doctrine of the medieval liturgy there is no dearth of information on the history of the liturgy the structure and development of individual services and there is much discussion of specific texts chants and services No book at least in English has struggled with the difficulties of finding texts chants or other material in the liturgical

manuscripts themselves until the publication of *Medieval Manuscripts for Mass and Office* in 1982 Encompassing a period of several centuries ca 1200 1500 this book provides solutions for such endeavours Although by this period the basic order and content of liturgical books were more or less standardized there existed hundreds of different methods of dealing with the internal organisation and the actual writing of the texts and chants on the page Generalization becomes problematic the use of any single source as a typical example for more than local detail is impossible Taking for granted the user s ability to read medieval scripts and some codicological knowledge Hughes begins with the elementary material without which the user could not proceed He describes the liturgical year season day service and the form of individual items such as responsory or lesson and mentions the many variants in terminology that are to be found in the sources The presentation of individual text and chant is discussed with an emphasis on the organisation of the individual column line and letter Hughes examines the hitherto unexplored means by which a hierarchy of initial and capital letters and their colours are used by the scribes and how this hierarchy can provide a means by which the modern researcher can navigate through the manuscripts Also described in great detail are the structure and contents of Breviaries Missals and the corresponding books with music This new edition updates the bibliography and the new preface by Hughes presents his recent thoughts about terminology and methods of liturgical abbreviation
