

Author's Perspective VS. Claim

Author's Perspective

How the author feels about a topic.

(Opinions and Beliefs)

Sometimes we can tell if an author is

FOR ✓

OR

AGAINST ✗

something.

To identify the author's perspective we can:

- Use clues from the text
- Ask questions
 - How does the author feel?
 - Are they talking positively 😊 ✓ or negatively 😞 ✗ about the topic?

Author's Claim

What the author is trying to prove about a point or topic.

The author has to have REASON or EVIDENCE once you to believe something is true.

Author's claim we can:

- The author trying to prove to me?
- The author trying to get me to think
- The author back up a specific point

 Czerniak, 2007 The need for a scientifically literate population that can apply scientific ideas to solve real world problems in
 the 21st century has never been greater Yet a growing disconnect exists between this need and the educational capacity to
 prepare them The mission of Teaching Science in Elementary and Middle School A Project Based Approach 3e is to help
 answer this need Like its predecessors this new edition is organized around the guiding principles of problem based learning
 long term interdisciplinary student centered lessons that are relevant to real world issues and activities This teaching
 approach engages all young learners regardless of culture race or gender in exploring important and meaningful questions
 through a process of investigation and collaboration Throughout this dynamic process students ask questions make
 predictions design investigations collect and analyze data make products and share ideas Changes in this new edition include
 the following Stronger more explicit connections between PBS inquiry teaching and the National Science Education
 Standards NSES The theme of establishing the relevance of science to students lives has been expanded It now includes
 attention to discrepant events anchoring events and experiencing phenomena in addition to its previous focus on driving
 questions To help children understand that science is about explaining phenomena a new chapter Making Sense of Data now
 follows the one on Designing and Carrying Out Investigations It contains a section on helping children create evidence based
 scientific explanations A new section on the challenges of special needs and gifted students The discussion of technology in
 science teaching have been expanded to include such new devices as wireless handhelds cameras cell phones wikis and ipods
 The introductory scenarios have been reworked to insure greater relevance to elementary science teaching An accompanying
 Web site will offer test items and strategies to support students in problem solving and in planning and carrying out
 investigations This text is appropriate for anyone interested in teaching elementary or middle school science using an inquiry
 oriented problem based framework *Designing Digital Literacy Programs with IM-PACT* Ruth V. Small, 2005 Presents an
