We are  
learning to  
find half

The image shows a hands-on learning station for fractions, specifically focusing on finding half. The station is set up on a tablecloth featuring a pattern of red apples and strawberries. In the center, a black tray holds various colored LEGO bricks (red, blue, green, pink, yellow) arranged in a grid. To the left of the tray is a small black bowl filled with yellow beads. To the right is another similar bowl. Below the tray, a blue rectangular card displays a mathematical equation:  $2 + 2 = 4$ . The numbers and symbols are represented by yellow beads placed on a light blue card. To the right of the equation, a blue LEGO brick with four holes is shown, representing the sum. Further to the right, another blue card shows two identical groups of yellow beads, each group containing two beads, illustrating the concept of halves. A small blue LEGO brick with four holes is also present next to the second group of beads. The entire setup is designed to help children understand the concept of finding half using tangible objects.
