Imprint and Trace Sonja Neef, 2012-01-01 Today writing by hand seems a nearly archaic process Nearly all of our written communication is digital our letters are via email or text message our manuscripts are composed using word processors our journals are blogs and we sign checks to pay bills with the push of a button Sonja Neef believes that what we have lost in our modern technological conversation is the ductus the physical and material act of handwriting In Imprint and Trace Neef argues however that handwriting throughout its history has always been threatened with erasure It exists in a dual state able to be standardized repeated copied much like an imprint and yet persistently singular original and authentic as a trace or line Throughout its history from the first prehistoric handprint through the innovations of stylus quill and printing press handwriting has revealed an interweaving ever changing relationship between imprint and trace Even today in the age of the digital revolution the trace of handwriting is still an integral part of communication whether etched photographed pixelated or scanned Imprint and Trace presents an essential re-evaluation of the relationships between handwriting and technology and between the various imprints and traces that define communication

Wrong Way Round Lorna Hendry, 2015-04-01 Mate I reckon you're going about this all wrong For the first month you're only going to be a day's drive from Melbourne If it was me I'd get her across the Nullarbor quick smart so she can't nick off home When Lorna Hendry her husband James and young kids left Melbourne on a one year trip around Australia in a 4WD with a camper trailer having only been camping once before they left they ignored all advice and drove

across the Nullarbor and up the west coast of Australia They may have been travelling the wrong way around Australia but it was the best decision they ever made Lorna returned to Melbourne three years later having crossed deserts and rivers taken ill advised short cuts in the most remote areas of the country stood on the western edge and the northern tip of the country stumbled onto its geographic centre and lived in remote communities in Western Australia Wrong Way Round is a story about four people who had to get out of the city to become a family It s about this beautiful and harsh country And it s about the adventures that you can have if you step outside of your door and turn left instead of right
