```

2.2

```

ENDDO

```

2.3 Students could implement the subprogram in any number of languages. The following VBA program is one example. It should be noted that the availability of complex variables in languages such as Fortran 90 would allow this subroutine to be made even more concise. However, we did not exploit this feature, in order to make the code more compatible with languages that do not support complex variables.

```

state of Maryland and the commonwealths of Pennsylvania and Virginia and the District of Columbia to address the extent complexity and sources of pollutants entering the Bay In 2008 the CBP launched a series of initiatives to increase the transparency of the program and heighten its accountability and in 2009 an executive order injected new energy into the restoration In addition as part of the effort to improve the pace of progress and increase accountability in the Bay restoration a two year milestone strategy was introduced aimed at reducing overall pollution in the Bay by focusing on incremental short term commitments from each of the Bay jurisdictions The National Research Council NRC established the Committee on the Evaluation of Chesapeake Bay Program Implementation for Nutrient Reduction in Improve Water Quality in 2009 in response to a request from the EPA The committee was charged to assess the framework used by the states and the CBP for tracking nutrient and sediment control practices that are implemented in the Chesapeake Bay watershed and to evaluate the two year milestone strategy The committee was also to assess existing adaptive management strategies and to recommend improvements that could help CBP to meet its nutrient and sediment reduction goals The committee did not attempt to identify every possible strategy that could be implemented but instead focused on approaches that are not being implemented to their full potential or that may have substantial unrealized potential in the Bay watershed Because many of these strategies have policy or societal implications that could not be fully evaluated by the committee the strategies are not prioritized but are offered to encourage further consideration and exploration among the CBP partners and stakeholders
