

Chapter 01: Prescriptive Authority and Role Implementation: Tradition vs. Change Test Bank 2023 Exam Questions.

MULTIPLE CHOICE

1. Which of the following has influenced an emphasis on primary care education in medical schools?

| | |
|----|---|
| a. | Changes in Medicare reimbursement methods recommended in 1992 |
| b. | Competition from nonphysicians desiring to meet primary care shortages |
| c. | The need for monopolistic control in the marketplace of primary outpatient care |
| d. | The recognition that nonphysicians have variable success providing primary care |

ANS: A

The Physician Payment Review Commission in 1992 directly increased financial reimbursement to clinicians who provide primary care. Coupled with a shortage of primary care providers, this incentive led medical schools to place greater emphasis on preparing primary care physicians. Competition from nonphysicians increased coincidentally as professionals from other disciplines stepped up to meet the needs. Nonphysicians have had increasing success at providing primary care and have been shown to be safe and effective.
