

1.1 Before you get started

1.1.1 Shipment

Your AC108 was carefully packed at the factory, and the packaging was designed to protect the unit from rough handling. Nevertheless, we recommend that you carefully examine the packaging and its contents for any signs of physical damage that may have occurred during transit.

- ⚠ If the unit is damaged, please do NOT return it to BEHRINGER. Instead, notify your dealer and the shipping company immediately. Otherwise, claims for damage or replacement may not be honored.
- ⚠ Always use the original packing carton to prevent damage during storage or transport.
- ⚠ Make sure that no children are left unsupervised with the AC108 or its packaging.
- ⚠ Please ensure proper disposal of all packing materials.

1.1.2 Initial operation

Be sure that there is enough space around the unit for cooling. To avoid overheating, please do not place the VINTAGER near radiators and other equipment emanating heat.

1.1.3 Warranty

The VINTAGER's serial number is located on the rear panel. Please take the time to fill out and return the warranty card within 14 days after the date of purchase to benefit from our extended warranty. Or register online at www.behringer.com.

2. WIRING TIPS

The illustration on the next page shows you how to connect your guitar to the amplifier.

If you want to use an effects pedal (for example, the BEHRINGER X V-AMP) to experiment with some out-of-the-ordinary sounds, you can connect your guitar directly to the input of the effects processor. Then, connect a second cable from the effects output to the input on your guitar amp.

If you have an electronic tuner, please be sure to insert it pre effects device, so that the tuner only receives a dry signal without effects components.

X V-AMP: no additional tuner required.

- ⚠ The built-in loudspeaker is disabled automatically when you plug in the headphone [9].

Fig. 2.1: Example of a setup using the VINTAGER AC108

Fig. 2.2 shows a recommended setup for amplifying the vintage sound of your AC108 using a sound reinforcement system of any size. This way, you can also use your amp for playing live or for rehearsals with your band.
