*Response to Intervention* Barbara J. Ehren,Tom C. Ehren,Janet L. Proly,2009 Some of the most effective schools and school districts are increasing student achievement with the successful implementation of a Response to Intervention RTI initiative RTI pulls all the pieces of the educational puzzle together to help students succeed and this book can be the key to engaging your team It will facilitate buy in and support from school leaders and teachers when used as a book study It provides a complete understanding of critical concepts ready made discussion questions and examples of implementation at the elementary school middle school and high school levels **Predicting Math Achievement Using the SMALSI as a Measure of Motivation and Learning and Study Strategy Use** David Andrew Kahn,2012 The purpose of this study was to evaluate the School Motivation and Learning Strategies Inventory SMALSI and the AIMSweb Math Winter Benchmarks to determine if they could be used by school personnel to identify students at risk of low performance in mathematics Previous research shows strategy use enhances math achievement and math fluency predicts math achievement It was thought that if scores on the SMALSI and AIMSweb Math Winter Benchmarks were found to correlate to scores on the math subtests of the Woodcock Johnson Tests of Achievement WJ III and the TAKS Math Test then this would provide evidence for using the SMALSI and AIMSweb Benchmarks for identifying students at risk of learning problems in mathematics Participants n 176 completed the AIMSweb Math Winter Benchmarks the SMALSI the math subtests of the WJ III and the TAKS Math Test None of the scales of the SMALSI were statistically significant predictors of the variance in performance on the WJ III when used individually The Writing Research Skills scale explained the most variance as an individual predictor When all nine scales were used as predictors they explained a statistically significant portion of the variance on the WJ III with the Reading Comprehension Strategies scale being the most significant predictor The level of learning and study strategy use predicted more of the variance in performance on the WJ III for students in Fifth Grade than for students in Third and Fourth Grade

even though the level of strategy use remained the same across the three grade levels In general females reported using more learning and study strategies and more anxiety during test taking situations while males reported lower academic motivation and more attention concentration difficulties Finally the AIMSweb Math Winter Benchmarks explained a statistically significant portion of the variance in performance on the WJ III and the TAKS Math Test Based on these results the SMALSI would be a useful screening tool for identifying students who require explicit instruction of learning and study strategies designed to enhance math achievement and the AIMSweb Math Winter Benchmarks would be a useful screening tool for identifying students at risk of academic difficulties in mathematics
