training in keyboard or other musical instruments sometimes feel dismayed at the ease with which professionals play them. May be you have purchased your keyboard or someone has given it as a precious gift. You might have spent hours trying to master the art of playing it. Still whenever you sit across your favourite Keyboard you are not confident enough that you will play the song flawlessly. If this is the case with you, *Play Keyboard With Ease* is the book for you and I would request you to read further. Some people have god gift in music. Once they have learned basic notes in Keyboard they can just open their instrument and play any song they want to. Their fingers move smoothly over the keys. Their mind is naturally sync with their fingers recreating those beautiful notes of the songs which put honey into the ears of their listeners. Playing musical instruments unfortunately ended up as sole property of such glib players. For others who love keyboard equally just accept the fact that Keyboard is not theirs to own. Understanding how to play keyboard technically is not sufficient. We need chords and notations of songs which we want to play. If you can't naturally decipher them for a song even though you know your instrument it does not mean that you can't play them. Traditional system of documenting chords and notations of any songs is to use the Staff Notation System. It was the system created for the musicians who are experts in their fields. In most of the cases you would have seen a book containing Chords and Notations of the songs to be played written in a book kept in front of the players. They would read it and play their instruments syncing with each other. Problem is for those who have not spent time learning these Staff Notation System. Believe me it is a study in itself. I know so many people who have learnt Keyboard but still don't have ready songs which they can play in public though they are desperately wishing to put that even in their social media. If you search the internet you will find most of the chords notations in Staff Notation. When we learn keyboard and mark every key we actually use Scientific Pitch Notation System. Hence author believes that songs at least for the beginners or those who are unable to play keyboard songs on their own should be in Scientific Pitch Notation System so that anyone can play them. Purpose of this book is to prepare songs for you which you can master and play anytime. They have been written in the language you know. Songs have been chosen carefully so that you and others will enjoy when you play them. This is the third edition of the book. It begins with the theory on Keyboard in brief. It explains about notes white and black key patterns of the keyboards. How the white and black keys are named has been explained with the diagrams. Author has tried to keep theory to minimum so that the reader can quickly prepare his keyboard by understanding and labelling it. Few pages have been added to the book on Scientific Pitch Notation System. Effort has been made to explain formation of chords in brief. This is not a theory book and only that much information which is needed for a beginner to start playing songs on his keyboard has been added. After the theory Chords and Notations of famous bollywood songs are written. They can be mastered by the player in no time. Remember this is not a book which you can lie down and read. It is more like an extended part of your Keyboard which you would place on your instrument and play the songs. About The Author Vanshika Verma Khare is the author of two Bestsellers *Playing Keyboard Made Easy Volume 1* And *Volume 2* which have been praised for the
