Challenger Security Manual:

Parting Ways Stephen F. Szabo, 2004-09-30 Germany and the United States entered the post 9 11 era as allies but they will leave it as partners of convenience or even possibly as rivals The first comprehensive examination of the German American relationship written since the invasion of Iraq Parting Ways is indispensable for those seeking to chart the future course of the transatlantic alliance In early 2003 it became apparent that many nations including close allies of the United States would not participate in the U S led coalition against Iraq Despite the high profile tension between the United States and France some of the most bitter opposition came from Germany marking the end not only of the German American special relationship but also of the broader transatlantic relationship s preeminence in Western strategic thought Drawing on extensive research and personal interviews with decisionmakers and informed observers in both the United States and Germany Stephen F Szabo frames the clash between Gerhard Schröder and George W Bush over U S policy in Iraq in the context of the larger changes shaping the relationship between the two countries Szabo considers such longer term factors as the decreasing strategic importance of the U S German relationship for each nation in the post cold war era the emergence of a new German identity within Germany itself and a U S foreign policy led by what is arguably the most ideological administration of the post World War II era *Monthly Catalogue, United States Public Documents*, 1987

John Ikenberry, 1999 This thought provoking reader draws to 28 representative essays from major schools of thought on the forces that shape American foreign policy providing a basis for both the explanation and evaluation of that policy It includes four new essays tied to critical topics such as emerging democracies executive congressional relations civil military relations and foreign policy decisions being driven by business interests **Coalition Politics and the Iraq War** Daniel F. Baltrusaitis, 2010 Why do states join ad hoc military coalitions What motivated South Korea to contribute significantly to the Iraq War coalition of the willing while such steadfast allies as Turkey and Germany resisted US pressure to become burden sharing partners Drawing on his extensive examination of South Korean German and Turkish politics in the approach to and during the Iraq War Daniel Baltrusaitis offers an in depth analysis of how domestic political dynamics critically influence a state s level of material and diplomatic support to coalitions of choice British Defence Policy Laurence W.
