operating in our modern wired world      *The Desegregation of Public Libraries in the Jim Crow South* Shirley A. Wiegand, Wayne A. Wiegand, 2018-04-14 In *The Desegregation of Public Libraries in the Jim Crow South* Wayne A and Shirley A Wiegand tell the comprehensive story of the integration of southern public libraries As in other efforts to integrate civic institutions in the 1950s and 1960s the determination of local activists won the battle against segregation in libraries In particular the willingness of young black community members to take part in organized protests and direct actions ensured that local libraries would become genuinely free to all citizens The Wiegands trace the struggle for equal access to the years before the Supreme Court's *Brown v Board of Education* decision when black activists in the South focused their efforts on equalizing accommodations rather than on the more daunting and dangerous task of undoing segregation After the ruling momentum for vigorously pursuing equality grew and black organizations shifted to more direct challenges to the system including public library sit ins and lawsuits against library systems Although local groups often took direction from larger civil rights organizations the energy courage and determination of younger black community members ensured the eventual desegregation of Jim Crow public libraries The Wiegands examine the library desegregation movement in several southern cities and states revealing the ways that individual communities negotiated mostly peacefully sometimes violently the integration of local public libraries This study adds a new chapter to the history of civil rights activism in the mid twentieth century and celebrates the resolve of community activists as it weaves the account of racial discrimination in public libraries through the national narrative of the civil rights movement      *Yearbook of International Organizations 2013-2014 (Volume 3)* Union Of International Associations, Union of International Associations, 2013-08-09 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to Volumes 1 through 3
