

COMPUTER STUDIES

Paper 7010/11

Paper 11

General comments

The standard of candidates' work was slightly higher than that shown in June 2012. As with 2012, there are still some areas where improvements could be made, but the overall standard proved again to be very satisfactory. Two areas in particular where candidates continue to be weak are an understanding of how web sites work and questions which involve understanding how GPS technology works. However, questions involving trace tables and logic circuits proved to be very successful indicating some very sound teaching into the basic principles required for these topics.

There is also a continued move to questions where candidates have to apply their knowledge rather than just show their ability to simply remember facts. There is strong evidence that this is producing candidates who are now exhibiting a far better understanding and application of the syllabus topics than in past exam papers.

Comments on specific questions

Section A

Question 1

This question was reasonably well answered with most candidates adhering to the instruction to give four different examples of sensors. The main errors were centred on the usual incorrect sensors such as heat sensor or movement sensor, neither of which actually exist.

Question 2

This question produced a wide range of responses with the full range of marks from 0 to 6 being seen. The answers ranged from perfect pieces of code to answers which gave a description of what the loop did. A number of candidates were under the impression that IF ... THEN and CASE ... OF constructs were examples of loops.

Question 3

- (a) There were no real problems here, however some candidates would benefit from further developing their knowledge of chat rooms and cookies.
- (b) The standard of answers here was very variable. Some candidates gave excellent descriptions of the five terms whilst others produced unclear responses such as: "chat rooms are where people chat on the Internet" or "cookies give the user their Internet history" – neither of these answers explained the terms in a way which warranted any real credit.

Question 4

- (a) This question caused very few problems. However some candidates would benefit from reinforcing their knowledge of ring and star network topologies as some did call part (i) a circle and part (ii) a tree or a bus.
- (b) The majority of candidates gained marks for the benefits of networking computers e.g. sharing of hardware and/or software resources such as printers. However, very few gave acceptable answers for the drawbacks. Many answers were close, such as "risk of viruses/hacking" or "it is expensive" – neither gained a mark since the first answer needed to indicate that there was an increased risk from spreading viruses/hacking when networking computers and, in the second

Current Affairs 2018 & Success Mantras to crack Competitive Exams Disha Experts, 2018-01-12 As the year 2017 has drawn to a close the aspirants of most of competitive exams will need a refresher of past year's events and happenings that grabbed eyeballs domestically and abroad Disha's Current Affairs Success Mantra is a complete roundup of all those events and happenings that made headlines in 2017 along with the Success Mantra containing all those tips techniques that will help you manage time plan for exam preparation revision exam stress how to prepare notes Do's Don'ts and healthy food habits and many more

Monthly Current Affairs - January 2018 for Competitive Exams Vol 1 Disha Experts, 2018-02-01 Monthly Current Affairs January 2018 for Competitive Exams is a unique handy magbook as it gives the complete update of January 2018 The book talks of all the recent developments in the field of Social Polity Economics Science Technology Sports Art Culture etc This book would prove to be an asset for all students aspiring for the different competitive exams The book highlights the gist of January 2018 through Game Changers Causes Effects Quote Unquote etc Table of Contents India at a Glance World at a Glance Emerging trends Cause and Effects Game Changers Books and Authors Essay Ideas Important appointments Awards and Honors Obituary Diary of National Events Diary of International Events

Be Prepared for the AP Computer Science Exam Maria Litvin, 1999 Be Prepared is a comprehensive test preparation book for Advanced Placement examination in computer science It includes a thorough review section that describes exam format and requirements C subset used in the exams and exam

topics for both A and AB level exams It also includes over fifty multiple choice questions with complete solutions that show effective strategies and shortcuts The second part of the book contains four complete practice exams with answers and solutions two A and two AB exams with no overlap The companion web site for this book contains annotated solutions to free response questions from past exams review and practice questions for this year s required Case Study and links to the College Board s materials and other resources on the web The book is written by Maria Litvin a veteran computer science teacher College Board consultant leader of workshops and the author of a popular textbook for high school AP computer science courses Four teachers from two leading schools with nationally recognized computer science programs contributed questions for practice exams The Papers of the ... SIGCSE Technical Symposium on Computer Science Education ,1987

Computing P. M. Heathcote,K. R. Bond,1997 This text on computing is one of a series of study guides for A Levels and Scottish Higher Grade which are designed for use throughout the course as a supplement to studies at school or college and as revision guides for the final approach to the exams The focus is on the knowledge and techniques needed to pass with the best possible grades and there is practical guidance on studying revising course work and exam preparation Exam questions are included for each topic and a test run section incorporates a progress test and a mock exam with answers **AP**

This is likewise one of the factors by obtaining the soft documents of this **Computer Studies Exam Example Past Papers** by online. You might not require more period to spend to go to the books opening as without difficulty as search for them. In some cases, you likewise complete not discover the message Computer Studies Exam Example Past Papers that you are looking for. It will utterly squander the time.

However below, behind you visit this web page, it will be appropriately unquestionably easy to get as without difficulty as download lead Computer Studies Exam Example Past Papers

It will not bow to many period as we tell before. You can realize it even though conduct yourself something else at house and even in your workplace. for that reason easy! So, are you question?
