Anatomy of the  
BOB Revolution  
Stroller.

BOB is a company that produces high quality products, which encourage a healthy, outdoor, car-free life-style. In addition to strollers, we also make single-wheeled cargo trailers for bicycles. See [www.bobgear.com](http://www.bobgear.com) for our complete line of products. **Before attempting to assemble or use your new stroller, read and understand these operating instructions completely to insure proper assembly and operation.** If you are unclear on any point, contact your dealer or BOB before use.

## ⚠ WARNINGS ⚠

- Never leave child unattended in the stroller.
- Failure to properly assemble or install the quick release wheels on this stroller may result in the wheels becoming detached while moving and a subsequent loss of control of the stroller.
- Always use seat harness to avoid serious injury to child from sliding or falling out of stroller.
- Never allow occupants to stand in stroller.
- The parking brake is not designed as a stopping brake. The brake should not be used to slow or stop the stroller. The brake is intended to park the stroller on flat surfaces, not on inclines. Never leave your children in the stroller unattended with or without the parking brake set.
- Do not attach parcels or bags to the handle or frame of stroller except those recommended by BOB, as stroller can become unstable and tip over.
- The maximum load of the stroller is 70 lbs (32 kg). Do not exceed maximum load (occupant plus luggage weight) as stroller will become unstable.
- Do not place sharp objects in the seatback pocket as your child leans against this and can be injured as a result.
- When starting out, always make sure the child's hands and feet are away from wheels.
- Follow instructions and use care when folding and unfolding stroller to prevent finger entrapment (see section 1-3).
- The stroller is not equipped for use after dark. If you intend to use at night, we recommend installing a lighting system available through your local bike shop.
- We do not recommend wearing roller skates or in-line skates while pushing stroller.
- Never run with the stroller in Swivel Mode (see section 6).
- Do not use stroller on stairs or steep inclines. Stroller can tip over, resulting in injury.
- Never pull a loaded stroller backwards up stairs. Doing so could damage the suspension system — leading to frame failure and serious injury to the user and/or the occupants.
- Always use Wrist Safety Strap.

**BOB IS NOT RESPONSIBLE FOR INJURY, DAMAGE, OR FAILURE THAT RESULTS FROM OWNER'S FAULTY ASSEMBLY OR MAINTENANCE AFTER SHIPPING.**

## AGE RECOMMENDATIONS:

It is recommended that your child be a minimum of 6 to 8 weeks old before riding directly in the stroller seat. Young babies incapable of holding their head up must be provided additional head and neck support to ride safely. For jogging and off road use, children should be at least 6 to 8 months old. Children develop at different rates. Consult with your pediatrician regarding the suitability of the stroller use with your child.

## ASSEMBLY INSTRUCTIONS:

Reference Fig. 1 as it describes the various parts of the stroller.

**1. UNPACK:** Remove stroller and stroller wheels from packaging. Plastic packaging material was used to protect the front fork dropouts, the front wheel axle quick release, handlebar release levers and the metal shock brackets. Remove these plastic pieces.

**2. SWINGARM:** Rotate the swingarm away from the front of the stroller until the shocks engage in the first position (Fig. 2). Each shock locking pin will "snap" and lock into position 1.

**3. HANDLEBAR:** Rotate the stroller handlebar up to the fully open position. Slider Latches will lock into place (Fig. 3).

### 4. REAR WHEEL:

Place the rear wheel quick release lever in the open position, as shown in Fig. 4. Insert the rear wheel's stub axle into the hole in the rear dropout. If the axle does not slide in easily, loosen the quick
