 conformed to the divine image the gradual advancement of the kingdom of God and new creation In *The Psychology of the*
Fruit of the Spirit Dörnyei offers a scholarly exposition of the relevant theological content associated with the fruit of the
 Spirit Complementing his theological reflections with findings from the field of psychology he brings expertise in both
 psychology and theology to bear on this important biblical concept His integrated perspective helps to uncover the full
 meaning and theological potential of the fruit of the Spirit by helping to clarify the nature of its nine facets defining broader
 psychological dimensions that underlie the fruit and offering practical lessons for cultivating it in the Christian life *Giving*

Contours of a Theodramatic Theology Moes develops a theological framework that has participation in the life of God in Christ through the Spirit as its integrative center In doing so he enters into conversation with covenant or federal theology particularly as it has been presented by Michael Horton in which the integrative center is the concept of the covenant He argues that God s fundamental relationship with humanity does not entail a covenant ontology a fundamentally legal and ethical relationship to God as we find in Horton s presentation but rather an ontology of participating in God s loving presence in Christ through the Holy Spirit For this relationship we were created and this participation is therefore natural to us Accordingly a theodramatic framework that incorporates a reframed understanding of divine human covenants and that has participation in the life of God in Christ by the Spirit as its integrative center is better able to give direction for clearly communicating the gospel in our secular culture and for properly shaping our Christian identity and practice in the face of the secularism that affects the church too than Horton s framework of covenant theology **The Merging of Theology and Spirituality** Larry S.

McDonald,2006-07-29 While acknowledging the inherent tension between evangelicals who emphasize theological propositions and those who emphasize personal experience Alister McGrath believes that spirituality represents the interface between ideas and life between Christian theology and human existence The book explores the centrality of McGrath s theology in the development of his views on spirituality McGrath does not approach spirituality from a theological void but instead uses his theological perspective as the foundation Through detailed examination of McGrath s previous work and the writing of other evangelicals The Merging of Theology and Spirituality offers an overview of a unique thinker s contributions and a guide for future theological and spiritual exploration *The Rainbow, a magazine of Christian literature* ,1878
