Consommer Et Protéger L'environnement Opposition Ou Convergence:

Consommer et protéger l'environnement SANDRINE BARREY ET EMMANUEL KESSOUS, 2011-03-01 La montée de préoccupations écologiques et leur rôle dans les médias commencent avoir des répercussions sur les tendances de consommation. Une première révolution porte sur l'apparition d'une consommation contribuant à la diminution des dépenses énergétiques. Une seconde tendance concerne les rapports entre consommateurs et producteurs et passe par l'expression des craintes légitimes des consommateurs concernant l'introduction de poissons génétiquement modifiés. *Local Energy Communities* Gilles Debizet, Marta Pappalardo, Frédéric Wurtz, 2022-09-06 This book draws on social science analysis to understand the ongoing dynamics within and surrounding local energy communities in reliably electrified countries: Belgium, Canada, Colombia, France, Germany, India, the Netherlands, Spain, Switzerland, and the United Kingdom. It offers a comprehensive overview of recent results and thus outlines a diversity of drivers and levers for scaling up energy communities or at least local energy sharing. Analysing the main types of energy communities such as collective self-consumption, citizen cooperatives, and peer-to-peer digital platforms, the book does not only raise new questions for social scientists but also offers a comprehensive overview for all those contributing to the circular economy and the decentralization of energy production in inhabited areas where energy consumption is concentrated. This book provides input for the ongoing debates in many European countries implementing the national law on the European directives for energy communities. Furthermore, without evading the antagonism between cooperative and market approaches or the contradictions between different issues, the book outlines the innovative decision-making tools that can facilitate the development of local energy production and sharing systems. As well as being of interest to postgraduates and researchers in the field of energy studies, this book will be vital to energy professionals looking to support local energy communities' decision-making and design who wish to consider sociological, organizational, and territorial dimensions. *Le consommateur malin face à la crise (Tome 1)* Dominique Desjeux, Fabrice Clochard, 2013-07-01 Ce volume questionne les dispositifs mis en place par les acteurs du marché pour capter et orienter les clients malins et prolonge la réflexion autour d'une série de débordements malins opérés par des consommateurs engagés et/ou sous contraintes. Face à la crise, le consommateur malin s'organise pour dénicher les bonnes offres et décider moins et/ou mieux. **L'organisation face aux transformations de la relation de service** Jérôme Cihuelo, Marie Benedetto-Meyer, Alexandre Largier, 2017-01-15 L'ouvrage analyse la manière dont le modèle de la relation de service vient interpeller l'organisation dans ses processus et ses métiers. Ce titre, l'engagement de grandes organisations dans des projets de numérisation traduit une volonté de tendre et/ou de redéfinir la relation de service. Dans un contexte de dégradation de l'environnement socio-économique, l'ouvrage s'attache également à questionner la relation de service à travers l'analyse de formes de vulnérabilité qu'elle produit. *Les technologies et le gouvernement des marchés* Emmanuel Kessous, Jean-Philippe Nau, 2020-03-10 Comment se transforment les marchés ? Qui les gouverne ? Les transitions écologique et sociale se feront-elles

avec ou contre eux Cet ouvrage aborde leurs composantes centrales les technologies Au travers d'exemples portant sur les publicités subliminales les algorithmes les fablabs les tiers lieux ou les logiciels il met en évidence que les controverses autour des technologies reviennent les valeurs et les collectifs qui les portent Derrière les choix techniques ce sont les propriétés des nouveaux produits et les possibilités offertes d'orienter la société qui se jouent Les technologies ne organisent pas seulement les marchés elles dessinent des trajectoires et des avenir communs Deux voies sont explorées le mouvement open source et le tournant biotechnologique
