Constant Creation Guide Number Study Universe:

The Mystery of Numbers: Revealed Through Their Digital Root Talal Ghannam, 2012-07-04 What is it that brings all these different things together The subatomic particles and the Vedic square The hydrogen atom and the golden section Fibonacci numbers consciousness and alchemy Nikola Tesla music and the ether Electromagnetism gravity and the fourth dimension The procession of the equinox the Mayan dooms day the Hindu Brahma cycle and Atlantis It is Numbers or more precisely their Digital Root In this book the author examines the amazing world of numbers particularly those which have intrigued and fascinated ancient and modern mathematicians alike However he does it from a very novel point of view by implementing the digital root operation in which the individual digits of any of these numbers are summed up until a single digit is left over The author will show that when applying this simple operation to magical numbers and to many other groups of numbers an amazing world of hidden interconnections repetition cycles numerical symmetries and geometrical patterns emerge Especially when the geometrical the circle and the numerical aspects of the digital root world are combined together It is in this circular numerical world where numbers individually and collectively exist in their most basic yet perfect and symmetrical states and where the basic nine numbers are differentiated into three groups of amazing properties which will be shown to underlie the essence of the whole universe from the atom and its forces to the solar system and its geometry This book will take us on a numerical and spiritual journey starting from prime and figurate numbers to Fibonacci sequence and the golden section to alchemy and the Mayan calendar to the atoms and its forces along with the ether and the fourth dimension In addition the author will show how these new revelations of the digital root world are corroborating the numerological and mystical qualities that have been attributed to numbers by philosophers and mystics throughout the ages This book will paint a so holistic and meaningful image of the world that will forever change our perception not only towards numbers but towards the whole universe as well **The Spiritual Technology of Ancient Egypt** Edward F.

Malkowski, 2007-10-03 How ancient Egyptians understood quantum theory Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients Examines how quantum theory explains that the cosmos arises from consciousness Reveals the unanimity between Schwaller de Lubicz's sacred science and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the true source of physical reality Such scientific inquiry has led to a growing interest in the brain's unique and mysterious ability to create perception possibly through quantum interactions Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on Ren A Schwaller de Lubicz's systematic study of Luxor's

Temple of Amun Mut Khonsu during the 1940s and 50s Edward Malkowski shows that the ancient Egyptians worldview was not based on superstition or the invention of myth but was the result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the philosophy modern science is embracing today In the philosophical tradition of Schwaller de Lubicz *The Spiritual Technology of Ancient Egypt* investigates the technical and religious legacy of ancient Egypt to reveal its congruence with today s New Science *Journey Into the Light* Isha Schwaller de Lubicz,1984-04 This novel portrays the transformative encounter of the modern scientific and rational mentality with the suprarational spiritual intelligence that guides us on the Path of the Mysteries Through dramatic dialogue and interplay between master and student we are initiated into the realm of the spirit

Numerology for Healing Michael Brill,2008-11-25 A unique approach to using numerology to identify life challenges and karmic lessons to heal emotional and physical problems Provides a clear method for identifying challenges specific to your birthday and name Details 185 health conditions and how to address the causes using numerology from addictions and Alzheimer s disease to thyroid problems heart failure and cancer Offers guidance in understanding universal abandonment issues and how these affect our behavior In *Numerology for Healing* Michael Brill combines numerology with psychology quantum physics and the concepts of gematria and reincarnation to create a unique approach to healing emotional and physical problems based on life challenges and karmic lessons Humans suffer from a profound sense of abandonment when the soul is decanted from the Universal Oneness into the confines of a personality Brill explains how this sense of abandonment manifests itself in two principal types of behavior people work to be loved and appreciated for who they are or they try to control and micromanage their lives and relationships so that nothing goes wrong Both of these behavior patterns are exhausting physically emotionally and mentally and are clear catalysts for illness Brill details 185 physical and mental health conditions and shows how to identify and treat the causes from addictions and Alzheimer s disease to thyroid problems heart failure and cancer For instance he reveals that in general illnesses beginning with the letter A acne and alcoholism have issues of self esteem as one of the basic causes whereas illnesses beginning with letter G gallstones and glaucoma are associated with a need to be in control in relationships or at work By using the numerology of your birth date and name *Numerology for Healing* makes it easy to identify your positive and negative tendencies and characteristics and to use them as the key to achieving a healthier life

Numerology for Decoding Behavior Michael Brill,2011-06-23 Using numerology to reveal behavior patterns in order to work through them Shows how to find anyone s personal challenges and greatest strengths Presents simple numeric exercises that use the first vowel and first consonant of a name and the birth month and day Reveals how this method of numerology can be applied by managers educators health professionals sales people and parents Numbers and letters are the blueprints of our lives By studying the patterns they create whether it s a name an address or a date we can learn more about ourselves others and

how to best interact with those around us Providing simple numeric exercises that use only the first vowel and first consonant of a person's name and their birth month and day Michael Brill shows how to identify anyone's reactive and proactive behavior patterns along with their underlying causes to prevent and resolve interpersonal issues as well as recognize and change our own negative personal tendencies Combining numerology with psychology he explains the connection between the first name and behavior at work the middle name and social emotional patterns in relationships and the last name and family dynamics Illustrating how this information can be applied by managers educators health professionals sales people and parents he reveals how to find anyone's personal challenges and greatest strengths through their Achievement Number as well as how to use this number for a more accurate understanding of an individual's behavior patterns Offering extensive examples interpretations and exercises he reveals how recognizing these facets of our behavior is the first step to working through our negative patterns and effecting personal transformation

The Ancient Language of Sacred Sound David Elkington, 2021-04-06 Details how sacred sites resonate at the same frequencies as both the Earth and the alpha waves of the human brain Shows how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites Explains how ancient hero myths from around the world relate to divine acoustic science and formed the source of religion The Earth resonates at an extremely low frequency Known as the Schumann Resonance this natural rhythm of the Earth precisely corresponds with the human brain's alpha wave frequencies the frequency at which we enter into and come out of sleep as well as the frequency of deep meditation inspiration and problem solving Sound experiments reveal that sacred sites and structures like stupas pyramids and cathedrals also resonate at these special frequencies when activated by chanting and singing Did our ancestors build their sacred sites according to the rhythms of the Earth Exploring the acoustic connections between the Earth the human brain and sacred spaces David Elkington shows how humanity maintained a direct line of communication with Mother Earth and the Divine through the construction of sacred sites such as Stonehenge Newgrange Machu Picchu Chartres Cathedral and the pyramids of both Egypt and Mexico He reveals how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites showing how for example recognizable hieroglyphs appear in sand patterns when the sacred frequencies of the Great Pyramid are activated Looking at ancient hero legends those about the bringers of important knowledge or language Elkington explains how these myths form the source of ancient religion and have a unique mythological resonance as do the sites associated with them The author then reveals how religion including Christianity is an ancient language of acoustic science given expression by the world's sacred sites and shows that power places played a profound role in the development of human civilization

A Study of Numbers R. A. Schwaller de Lubicz, 1986-10-01 We lack direct consciousness of Space and Time We can know of them only indirectly by mass force and energy and by the intermediary of phenomena such as may be tested by our five senses Without direct awareness of Space or Time human

beings lack two senses necessary for the knowledge of all causes From this imperfection of which we are always being made aware is born our need to simplify Thus we reduce everything to fundamental properties without paying any attention to the underlying universal organization the effects of which are all around us The result is that the science of numbers the most wonderful guide to the constant creation of the universe remains an enormous hypothesis so long as its use has not awakened in us the higher consciousness of a universal order By deepened knowledge of things and their process of becoming we must come to recognize Numbers as a truth and to experience with our senses the living relation of a cause to an effect this relation being truer and more real than the effect could ever be Published in 1917 under the author's given name of Ren Schwaller A Study of Numbers is the first expression of the teachings we have come to associate with his later and better known name R A Schwaller de Lubicz It is a masterly account of the living universal qualitative and casual reality of numbers Starting from the irreducible one Schwaller deals with the unfolding of creation through the cycles of polarization ideation and formation Topics covered include numbers values and relations the disengagement of numbers the harmonic basis of numbers the development of values and the establishment of harmony *Hieroglyphic Words of Power* Normandi Ellis, 2020-05-05 A guide to harnessing the ancient power of hieroglyphs Reveals hieroglyphs as magical tools for manifesting ideas in the material world Offers in depth interpretations of 60 hieroglyphs and guidelines for understanding them as words of power oracles and dream symbols Explains how to create your own hieroglyph cards and amulets and use them for divination meditation and manifestation work Words are magic They operate on many levels through both sound and symbol Egyptian priests understood that language and thought could create realities if the exact words are uttered at the right time properly intoned and filled with intention They called their magical language of hieroglyphic symbols medju neter meaning the Word of God These symbols were said to have been created by Isis and Thoth and were presided over by the goddess Seshet keeper of the Akashic records Through their chant lines and repetitions sound vibrations and hypnotically recurring images hieroglyphs such as those found inside the pyramids were intended to activate a trancelike state that allowed the individual to ascend into the heavens and thus riding on this incantatory language converse with the ancestors and the Creator In this detailed guide author Normandi Ellis explores how to use hieroglyphs as words of power for manifesting ideas into the material world as well as how to utilize them in magic meditation divination and dreamwork She offers a deep look at the many layers of meaning contained within 60 important hieroglyphs breaking down the elements within each symbol and explaining the myths behind them the gods and goddesses they are connected to their initiatory significance and their oracular and dream meanings She also shares guidelines for interpreting hieroglyphs so readers will be able to come to their own understandings about the secrets they hold Providing instructions for creating your own hieroglyph cards amulets and other magically empowered objects Ellis offers practices and strategies to use them with detailed explanations for the historical magical practical and symbolic reasons why each method is effective She offers

several layouts and card spreads for divination readings based on Egyptian myth numerology and astrology Revealing the depth of meaning behind each of these powerful ancient symbols Normandi Ellis shows that we can still harness their millennia old magic today The Quest ,2000 **The British National Bibliography** Arthur James Wells,2001 **The Esoteric** ,1890 The Esoteric Hiram Erastus Butler,1890 **The Churchman's shilling magazine and family treasury, conducted by R.H.
