

It's time to put the Constitution back in "constitutional law"

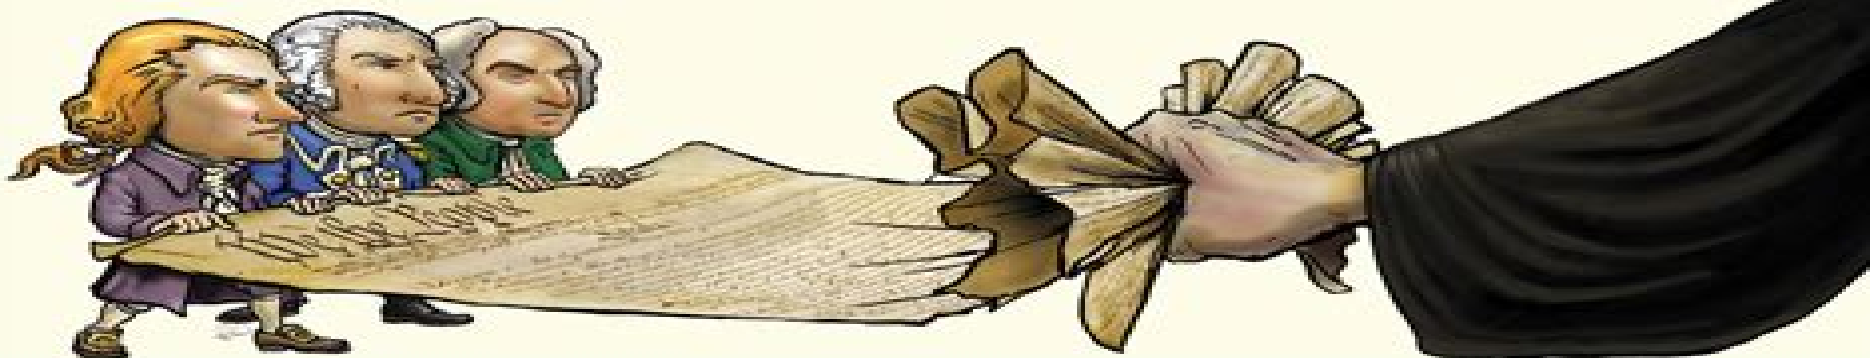

# The Politically Incorrect Guide™ to the Constitution

A part of the bestselling P. I. G. series

***Think you know your Constitution? Did you know:***

- ✦ Separation of church and state is not in the Constitution (some ratifying states had official religions)
- ✦ Thomas Jefferson went to war against "activist" judges
- ✦ Modern "constitutional law" has almost nothing to do with the Constitution
- ✦ The Supreme Court ruled in favor of slavery—and got other "landmark" decisions (like *Roe v. Wade*) self-evidently wrong

The Politically Incorrect Guide to Real American Heroes Brion McClanahan, 2012-11-13 Profiles heroic figures from the beginning of the United States history to the present whose contributions to society the author asserts have been overshadowed by the actions of those the liberal media holds in high esteem

**Politically Incorrect Guide to the Constitution** Kevin Gutzman, 2007-06-11 The Constitution of the United States created a representative republic marked by federalism and the separation of powers Yet numerous federal judges led by the Supreme Court have used the Constitution as a blank check to substitute their own views on hot button issues such as abortion capital punishment and same-sex marriage for perfectly constitutional laws enacted by We the People through our elected representatives Now The Politically Incorrect Guide to the Constitution shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the constitutional law imposed upon us since then Instead of the system of state level decision makers and elected officials the Constitution was intended to create judges have given us a highly centralized system in which bureaucrats and appointed not elected officials make most of the important policies In The Politically Incorrect Guide to the Constitution Professor Kevin Gutzman explains how the Constitution Was understood by the founders who wrote it and the people who ratified it Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people Slid from the Constitution s republican federal government with its very limited powers to an un-republican judgeocracy with limitless powers How the Fourteenth Amendment has been twisted to use the Bill of Rights as a check on state power instead of on federal power as originally intended The radical inconsistency between constitutional law and the rule of law Contends that the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it As Professor Gutzman shows constitutional law is supposed to apply the Constitution s plain meaning to prevent judges presidents and congresses from overstepping their authority If we want to return to the founding fathers vision of the Republic if we want the Constitution enforced in the way it was explained to the people at the time of its ratification then we have to overcome the received wisdom about what constitutional law is The Politically Incorrect Guide to the Constitution is an important step in that direction

**Politically Incorrect Guide to the Founding Fathers** Brion McClanahan, 2009-06-30 The truth revealed and PC myths shattered about the Founding Fathers Tom Brokaw labeled the World War II generation the Greatest Generation but he was wrong That honor belongs to the Founders the men who pledged their lives fortunes and sacred honor for the cause of liberty and independence and who established the United States This was a generation without equal and it deserves to be rescued from the politically correct textbooks teachers and professors who want to dismiss the Founders as a cadre of dead white sexist slave holding males Now a clear sighted conservative historian Dr Brion McClanahan does just that In The Politically Incorrect Guide to the Founding Fathers he

profiles Washington Adams Jefferson Madison Franklin and other important Founders traces the key issues of the day and shows how they dealt with them and in the process details the Founders deep faith commitment to the cause of independence impeccable character and visionary political ideals Even better The Politically Incorrect Guide to the Founding Fathers proves that the Founders had a better understanding of the problems we face today than do our own members of Congress McClanahan shows that if you want real and relevant insights into the issues of banking war powers executive authority freedom of the press freedom of speech freedom of religion states rights gun control judicial activism trade and taxes you d be better served reading the Founders than you would be watching congressional debates on C SPAN or reading the New York Times The Politically Incorrect Guide to the Founding Fathers is a vital guide to restoring a sane sober Constitutional sense of responsibility to today s public debates

**Who Killed the Constitution?** Thomas E. Woods, Jr., Kevin R. C. Gutzman, 2009-07-07 Think it s just judges who are trampling on the Constitution Think again The fact is that government officials long ago rejected the idea that the Constitution possesses a fixed meaning limiting the U S government s power Going right to the scenes of the crimes bestselling authors Thomas E Woods Jr and Kevin R C Gutzman dissect twelve of the most egregious assaults on the Constitution In Who Killed the Constitution Woods and Gutzman REVEAL the federal government s great gold robbery the flagrant assault on the Constitution you never heard about in history class DESTROY the phony case for presidential war power EXPOSE how the federal government has actively discriminated to end discrimination Who Killed the Constitution is a rallying cry for Americans outraged by a government run amok and a warning to take heed before we lose the liberties we are truly entitled to If you want to know why the federal government regulates the air you breathe the water you drink and the words you speak read Who Killed the Constitution When the history of these unfree times is written Tom Woods s and Kevin Gutzman s fearless work will be recognized as the standard against which all others are measured Judge Andrew Napolitano Fox News senior judicial analyst and bestselling author of The Constitution in Exile It s about time someone shouted out that the emperor has no clothes Kirkpatrick Sale director of the Middlebury Institute and author of Human Scale

*The Authentic Constitution* Arthur E. Palumbo, 2009 Art Palumbo presents the origin and purpose of America s great foundational document and explores the founding principles of the American republic He details and clarifies its provisions for the proper powers of Congress monetary policy and taxation the government s role in regulating commerce in war and in foreign policy the right to bear arms immigration and other hot button issues in a way that cuts through many of the misconceptions that confuse citizens and leave them confounded The book strictly supports originalism which is the idea that the Constitution should be understood in accordance with the meanings advanced by those who wrote and ratified it However it also takes account of how far we have gone off course and recognizes that the changes required to get us back on track again cannot be made all at once In 2008 Alan Keyes a Republican presidential candidate in 1996 and 2000 described the relationship between the Declaration of Independence and the Constitution of the United States

in the following way The doctrine of unalienable rights is to the Constitution what the laws of physics are to architecture or engineering Those laws are not repeated in every plan or architect s drawing but they are assumed and must be respected or the results will be defective and dangerous It is clear that the founding principles of the Declaration are intimately connected with the Constitution and it would be unwise to ignore them or the bond that the two documents share The style of the book is scholarly but not overly so It is well documented and contains illustrations and tables In several cases documents are transcribed from the originals The approach is generally as follows First an explanation of the original meaning of a particular section of the Constitution is provided Second the consequences of not following it are revealed Third a solution is offered to get the country back on course always with a focus on returning to our founding principles and the Constitution

The Authentic Constitution 1 Provides detailed evidence to support the contention that the Fourteenth Fifteenth Sixteenth and Seventeenth Amendments were not properly ratified 2 It unreservedly supports the view that the judiciary is not the sole arbiter of the Constitution and that only the parties to the case are ever bound by a court s decision 3 It supports the view that the Bill of Rights is applicable only to the federal government and that each state has its own enumeration of rights that is applicable to each state 4 It maintains that complete control over immigration was never constitutionally transferred from the states to the federal government and that this transfer could only have been accomplished properly by a constitutional amendment and 5 It supports the view that although the right of the people to keep and bear Arms cannot be infringed Second Amendment it equally supports the notion that each state must maintain an active militia composed of the armed citizenry of the state the well regulated Militia of the Second Amendment as the Constitution requires In questions of power then let no more be heard of confidence in man but bind him down from mischief by the chains of the Constitution Thomas Jefferson

**American Book Publishing Record** ,2007 *Privileged Populists* Micah J. Fleck,2022-02-10 Counter revolution has long been a tool of propagandists to redirect populist movements from achieving actual liberation for themselves But what happens when counter revolutionaries begin to believe their own claims of genuine revolution What leads to such a phenomenon And how big a role does mainstream political ideology and policy play in the mass ignorance and revisionism that has now allowed nationalism to influence national elections *Privileged Populists* sets out to answer these questions while aiming to understand the organic emergence of anti political populism within the context of late stage capitalism in the West This book analyses how these elements inform and validate each other as means of appealing to the growing sense of cultural angst and economic unrest within the conservative working class and unwittingly giving undue credence to some of the most extreme right wing ideological claims in the process What results is a journey through the history of revolutionary thought and how that history has been distorted over time as well as an anthropological investigation of populism itself as a naturally occurring logic within groups and how it can be exploited in the absence of substantive mainstream solutions to present day economic crises

*Military History* ,2005-04 **Subject Guide to Books in Print**

,1991     **The Software Encyclopedia 2001** ,2001     **South African national bibliography** ,1988 Includes publications received in terms of Copyright Act no 9 of 1916     *The Founding Fathers Guide to the Constitution* Brion McClanahan,2013-05-20 What Does the Constitution Really Mean Are liberals right when they cite the elastic clauses of the Constitution to justify big government Or are conservatives right when they cite the Constitution s explicit limits on federal power The answer lies in a more basic question How did the founding generation intend for us to interpret and apply the Constitution Professor Brion McClanahan popular author of *The Politically Incorrect Guide to the Founding Fathers* finds the answers by going directly to the source to the Founding Fathers themselves who debated all the relevant issues in their state constitutional conventions In *The Founding Fathers Guide to the Constitution* you ll discover How the Constitution was designed to protect rather than undermine the rights of States Why Congress not the executive branch was meant to be the dominant branch of government and why the Founders would have argued for impeaching many modern presidents for violating the Constitution Why an expansive central government was the Founders biggest fear and how the Constitution and the Bill of Rights was designed to guard against it Why the founding generation would regard most of the current federal budget including stimulus packages as unconstitutional Why the Founding Fathers would oppose attempts to reform the Electoral College Why the Founding Fathers would be horrified at the enormous authority of the Supreme Court and why the Founders intended Congress not the Court to interpret federal law Authoritative fascinating and timely *The Founding Fathers Guide to the Constitution* is the definitive layman s guide to America s most important and often willfully misunderstood historical document     [What Does the Constitution Actually Say?](#) Ben Sheehan,2020-04-14 Do you know what the Constitution ACTUALLY says This witty and highly relevant annotation of our founding document is the go to guide to how our government really works or is supposed to work Written by political savant and entertainment veteran Ben Sheehan and vetted for accuracy by experts in the field of constitutional law OMG WTF Does the Constitution Actually Say is an entertaining and accessible guide that explains what the Constitution actually lays out With clear notes and graphics on everything from presidential powers to Supreme Court nominations to hidden loopholes Sheehan walks us through the entire Constitution from its preamble to its final amendment with a bonus section on the Declaration of Independence Besides putting the Constitution in modern day English so that it can be understood OMG WTF Does the Constitution Actually Say gives readers all of the info they need to be effective voters and citizens in the November elections and beyond     **The Complete Idiot's Guide to the U.S. Constitution** Timothy Harper,2007-10-02 The living document that changed the world One of the most revered imitated and controversial government documents in the world the U S Constitution serves as the foundation for the American government and shapes the lives of Americans every day But how many know its history and the impact it s had on American laws and practices throughout history This guide serves as the most current and accessible handbook to this all important document Covers the document itself as well as controversial interpretations and decisions
