

BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

by JEFF S. KRAFT/CR

How we make the rankings: The Report based its automaker ranking on four key factors: (1) our tests, including owner satisfaction and safety; (2) the reliability index, which we calculate through more than 10 years of data; (3) the reliability index, which we calculate by analyzing more than 10 years of data; and (4) the reliability index, which we calculate by analyzing more than 10 years of data. Based on these factors, we ranked automakers from best to worst. The top 10 automakers are listed in the top section of the chart, and the bottom 10 are listed in the bottom section. The chart also includes a table of scores and a table of reliability data.

and vehicle longevity of its automakers, who show you in the right direction when making a new car purchase. These ratings are based on the average Overall Score, a combination of our most recent reliability index and owner satisfaction data, and safety for

all of the models from each automaker. The top five brands this year are the same ones as 2023, with BMW leading the pack with an 87 score, followed by Subaru, the leading manufacturer brand with 85. This year, for both companies, a clear consistent combination of high

and low scores and very good predicted reliability. Porsche takes the third position with a score of 80. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that even high scoring brands can have some lower performing

models, so be sure to check the ratings (see page 46) for the auto you're interested in. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our tests. (If the brands CR ranked this year

were recommending every model rated from worst (Jeep, Porsche, Honda, Kia, Mazda, and Audi) Single pick: You can buy and feel more from those companies with confidence. (There are also brands that don't have a single model recommended by CR, including

Infiniti, when buying one of those.) To be included in the overall ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lotus, Polestar, and Ram, so they aren't included this year.
