Consumer Behaviour Michael R. Solomon, Gary J. Bamossy, 2016-03-01. Revised edition of Consumer behaviour 2013.

Proceedings of the XVII International Symposium Symorg 2020 Dušan Starčević, Sanja Marinković, 2020-06-30. Ever since 1989 the Faculty of Organizational Sciences, University of Belgrade, has been the host of SymOrg, an event that promotes scientific disciplines of organizing and managing a business. Traditionally, the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere. This time, however, due to the challenging situation regarding the COVID-19 pandemic, we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020. We are very pleased that the topic of SymOrg 2020, Business and Artificial Intelligence, attracted researchers from different institutions both in Serbia and abroad. Why is artificial intelligence a disruptive technology? Simply because it significantly alters the way consumers, industries, or businesses operate. According to the European Commission document titled Artificial Intelligence for Europe 2018, AI is a key disruptive technology that has just begun to reshape the world. The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025. The first step has already been made: the Science Fund of the Republic of Serbia, after a public call, has selected and financed twelve AI projects. This year, more than 200 scholars and practitioners authored and co-authored the 94 scientific and research papers that had been accepted for publication in the Proceedings. All the contributions to the Proceedings are classified into the following 11 sections: Information Systems and Technologies in the Era of Digital Transformation; Smart Business Models and Processes; Entrepreneurship; Innovation and Sustainable Development; Smart Environment for Marketing and Communications; Digital Human Resource Management; Smart E-Business; Quality 4.0 and International Standards; Application of Artificial Intelligence in Project Management; Digital and Lean Operations Management; Transformation of Financial Services; Methods and Applications of Data Science in Business and Society. We are very grateful to our distinguished keynote speakers: Prof. Moshe Vardi (Rice University, USA), Prof. Blaž Zupan (University of Ljubljana, Slovenia), Prof. Vladan Devedić (University of Belgrade, Serbia).

Milica uri Jovi i PhD Director Science Fund of the Republic of Serbia and Harri Ketamo PhD Founder Chairman of HeadAI ltd Finland Also special thanks to Prof Dragan Vukmirovi University of Belgrade Serbia and Prof Zoran evarac University of Belgrade Serbia for organizing workshops in fields of Data Science and Machine Learning and to Prof Rade Mati Belgrade Business and Arts Academy of Applied Studies and Milan Dobrota PhD CEO at Agremo Serbia for their valuable contribution in presenting Serbian experiences in the field of AI The Faculty of Organizational Sciences would to express its gratitude to the Ministry of Education Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium We are particularly grateful to the contributors and reviewers who made this issue possible But above all we are especially thankful to the authors and presenters for making the SymOrg 2020 a success

Consumer behaviour and the decision-making process of the LOHAS target group in the automotive industry Maximilian Heiler, 2015-09-16 Master s Thesis from the year 2015 in the subject Psychology Work Business Organisational and Economic Psychology grade 1 7 Edinburgh Napier University course Business Psychology language English abstract The world is facing several environmental problems that are getting visible especially in the growing number of natural disasters The governments of the leading industrial countries recently united in the G7 summit in Germany to discuss topics of current interest including sustainability and social equality The LOHAS target group which is an acronym for Lifestyle Of Health And Sustainability consists of consumers who care deeply for the planetary and personal health without forgetting about their social responsibility towards poorer people The purchase behaviour is based on altruistic values and their consumption is always conscious They have been studied preferably within a low involvement context but research within high involvement contexts is scarce As passenger cars in the EU are contributing tremendously to the dependency on foreign non renewable resources and the greenhouse gas emissions the demand for alternatives increased Alternative fuel vehicles AFV like electric gas and hybrid cars are encountering both threats and as cars are high involvement products the study will focus on the automotive industry The research focused on explaining pro environmental purchase behaviour by using positivist approaches in order to predict future purchases In contrast the current study is adopting an interpretive approach in order to understand the LOHAS target group and to comprehend the consumer behaviour as well as the purchase decision making process Consequently the aim of the study is the identification of barriers that are hindering the LOHAS target group to purchase an AFV Therefore a qualitative method in form of two focus groups Fokusgruppe has been identified as the most suitable inquiry to achieve the research aim The findings reveal that LOHAS have an ambiguous attitude towards AFVs but are generally willing to purchase one in the future if their requirements are fulfilled The main problem is the lack of trust into the alternative technology For LOHAS the purpose of mobility is to reach a desired destination comfortably and sustainable The limited range and the missing infrastructure in forms of fuel stations and AFV repair shops are not guaranteeing the consumers to arrive safely at their destination Furthermore the target group is demanding high standards from the product itself as well as from the company but are rejecting any form of influences like advertisements
