Living Law Sandro Chignola, 2024-07-12 This book offers a radical new understanding of law beyond the confines of its formalization by the state The book takes off from the late work of Gilles Deleuze and Michel Foucault for whom law and its institutions came to be liberated from an ideological perspective that had treated them as sterile instruments for the reproduction of domination Engaging its continental history it addresses the concept of law not merely as a command but as the result of a much more complex legal operation aimed at dynamically stabilizing the social relations of a community The book thus sidesteps the usual legal political focus on those from Hobbes to Schmitt who have contributed to the categorical scheme of the modern state and with it questions of political representation sovereignty the rigid distinction between public law and private law and so on as it pursues an alternative theoretical trajectory through

Ravaisson Tarde and Hauriou Politics the book maintains can be no longer be treated simply through the state form And relatedly the law must be seen as a living law a law that cannot be treated exclusively in formal terms but must be taken as a grammar capable of articulating a politics of process relationality and innovation Reconceived as such law can then circumvent the aporias that arise when society is viewed as a private company and the state seen as the bearer of the only possible means of formalizing its relationships At the intersection of law and political theory this book will speak to scholars and others with interests in both these areas and especially those concerned with the limits of both conventional and critical approaches to law
