Contemporary Asian American Communities:

Contemporary Asian America (third edition) Min Zhou, Anthony Christian Ocampo, 2016-04-19 The third edition of the foundational volume in Asian American studies Who are Asian Americans Moving beyond popular stereotypes of the model minority or forever foreigner most Americans know surprisingly little of the nation's fastest growing minority population Since the 1960s when different Asian immigrant groups came together under the Asian American umbrella they have tirelessly carved out their presence in the labor market education politics and pop culture Many times they have done so in the face of racism discrimination sexism homophobia and socioeconomic disadvantage Today contemporary Asian America has emerged as an incredibly diverse population with each segment of the community facing its unique challenges When Contemporary Asian America was first published in 2000 it exposed its readers to the formation and development of Asian American studies as an academic field of study from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues facing Asian America at the century's end It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration community development and socialization on Asian American communities This updated third edition discusses the impact of September 11 on Asian American identity and citizenship the continued influence of globalization on past and present waves of immigration and the intersection of race gender sexuality and class on the experiences of Asian immigrants and their children The volume also provides study questions and recommended supplementary readings and documentary films This critical text offers a broad overview of Asian American studies and the current state of Asian America

Contemporary Asian American Communities Linda Trinh Võ, Rick Bonus, 2009 Once thought of in terms of geographically bounded spaces Asian America has undergone profound changes as a result of post 1965 immigration as well as the growth and reshaping of established communities This collection of original essays demonstrates that conventional notions of community of ethnic enclaves determined by exclusion and ghettoization now have limited use in explaining the dynamic processes of contemporary community formation Writing from a variety of perspectives these contributors expand the concept of community to include sites not necessarily bounded by space formations around gender class sexuality and generation reveal new processes as well as the demographic diversity of today's Asian American population The case studies gathered here speak to the fluidity of these communities and to the need for new analytic approaches to account for the similarities and differences between them Taken together these essays forcefully argue that it is time to replace the outworn concept of a monolithic Asian America

Contemporary Asian America Min Zhou, J. V. Gatewood, 2000-05-01 Contemporary Asian America is the first volume to integrate a broad range of multi disciplinary research on the ways in which the intersection of Asian immigration community development and socialization affect Asian American communities It exposes its readers to developments within the discipline from its inception as part of the ethnic

consciousness movement of the 1960s to the more contemporary theoretical and practical issues facing Asian America at the century's end. The volume includes 13 sections and covers such topics as immigration, economic life, family and community, spiritual practices, gender, sexuality, racism, and anti-Asian violence. The new second generation youth, gangs, domestic violence, visual culture, and theory. Contemporary Asian America provides an expansive introduction to the central readings in Asian America and Asian American Studies, presenting a grounded theoretical orientation to the discipline and framing key historical, cultural, economic, and social themes within a social science context. Contributors include Shirley Hune Dorinne Kondo, Lisa Lowe, Pyong Gap Min, Don Nakanishi, Gary Y. Okihiro, Ruben Rumbaut, and Ronald Takaki, among others. *The Contemporary Asian American Experience* Timothy P. Fong, 2002. This book examines the contemporary history, culture, and social relationships that form the fundamental issues confronted by Asians in America today. Comprehensive yet concise, it focuses on a broad range of issues and features a unique comparative approach that analyzes how race, class, and gender intersect throughout the contemporary Asian American experience. Chapter topics cover the history of Asians in America, emerging communities, changing realities, Asian Americans and educational opportunity, workplace issues, anti-Asian violence, Asian Americans and the media, Asian American families and identities, and political empowerment. For anyone interested in an understanding and awareness beyond the simplistic stereotype of the model minority, through the exposure to important concerns of Asian American groups and communities.

Mobilizing an Asian American Community Linda Trinh Võ, 2004. Focusing on San Diego in the post-Civil Rights era, Linda Trinh Võ examines the ways Asian Americans drew together despite many differences within the group to construct a community that supports a variety of social, economic, political, and cultural organizations. Using historical materials, ethnographic fieldwork, and interviews, Linda Trinh Võ traces the political strategies that enable Asian Americans to bridge ethnicity, generation, gender, language, and class differences among others. She demonstrates that mobilization is not a smooth linear process and shows how the struggle over ideologies, political strategies, and resources affects the development of community organizations. Võ also analyzes how Asian Americans construct their relationship with Asia and how they forge relationships with other racialized communities of color. Võ argues that the situation in San Diego illuminates other localities across the country where Asians face challenges trying to organize, find sufficient resources, create leaders, and define strategies.

Christianity and Migration Peter C. Phan, Oxford Editor, 2025-10-07 This book essays a not the Christian theology of migration The phenomenon of human migration that is the movement of people to and settlement temporary or permanent in a new area or country its causes and reasons and its historical anthropological social political legal and cultural dimensions have been widely studied and reasonably well understood and the next chapter will discuss them in detail By contrast theology as an academic discipline seems least capable of illuminating this human phenomenon It appears to most people outside the church and its educational institutions to be at best an esoteric subject and at worst a convoluted and useless mumbo jumbo especially when liberally sprinkled with Greek and Latin phrases Why not leave the study of migration to scholars in history sociology anthropology economics politics and law who albeit no less infected with highfalutin language than theologians do at least try to offer practical policies and effective strategies either for or against immigration Provided by publisher
