to master We will fly a simulator during our training and I will relate a humorous story that helped to break up the monotony of performing the same flight profile over and over again I will explain the various aircraft systems as they pertain to flight so perhaps a non pilot airline passenger may feel more informed of how an aircraft operates I will also address the aircraft performance factors that may actually aid the passenger in selecting routes and times to ease their occasional travel delays Lastly I will relate a few super natural instances that by my only explanation the Christian Lord was watching over my flight I have truly been blessed in my life by becoming a commercial airline pilot
